

# Art for Campaigning

Citizen Participation Team | January 2017

The Civic Update is produced three times a year to provide an in-depth look at particular NDI program approaches and practices. This edition - the first-ever in video format - explores NDI's role supporting local partners to use art and creative tactics as part of their organizing. It includes examples from the Central African Republic, Guatemala, Kosovo, Macedonia, Nepal and Nigeria. [Click here](#) or on the image above to view the video.
