Survey fieldwork was conducted by Kyiv International Institute of Sociology

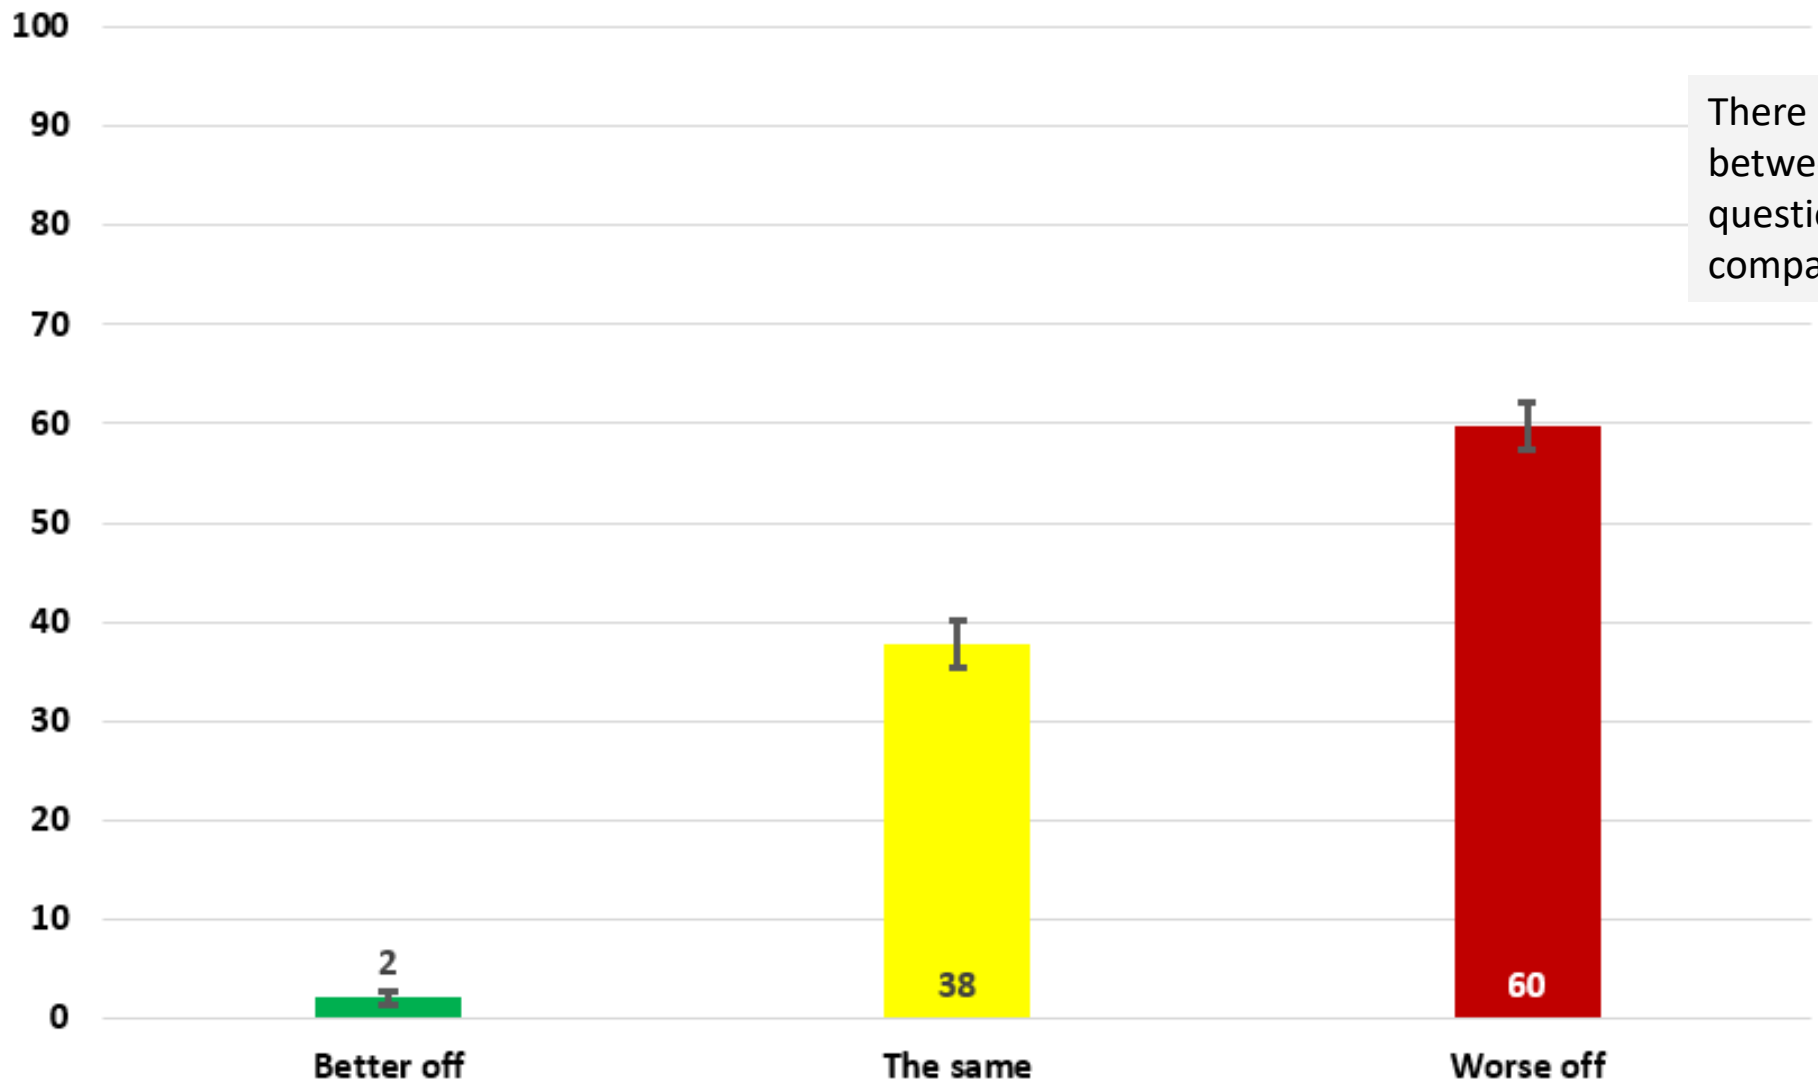

# SURVEY REGIONS

Fieldwork dates:  
December 16 – 24, 2020  
2,533 completed interviews

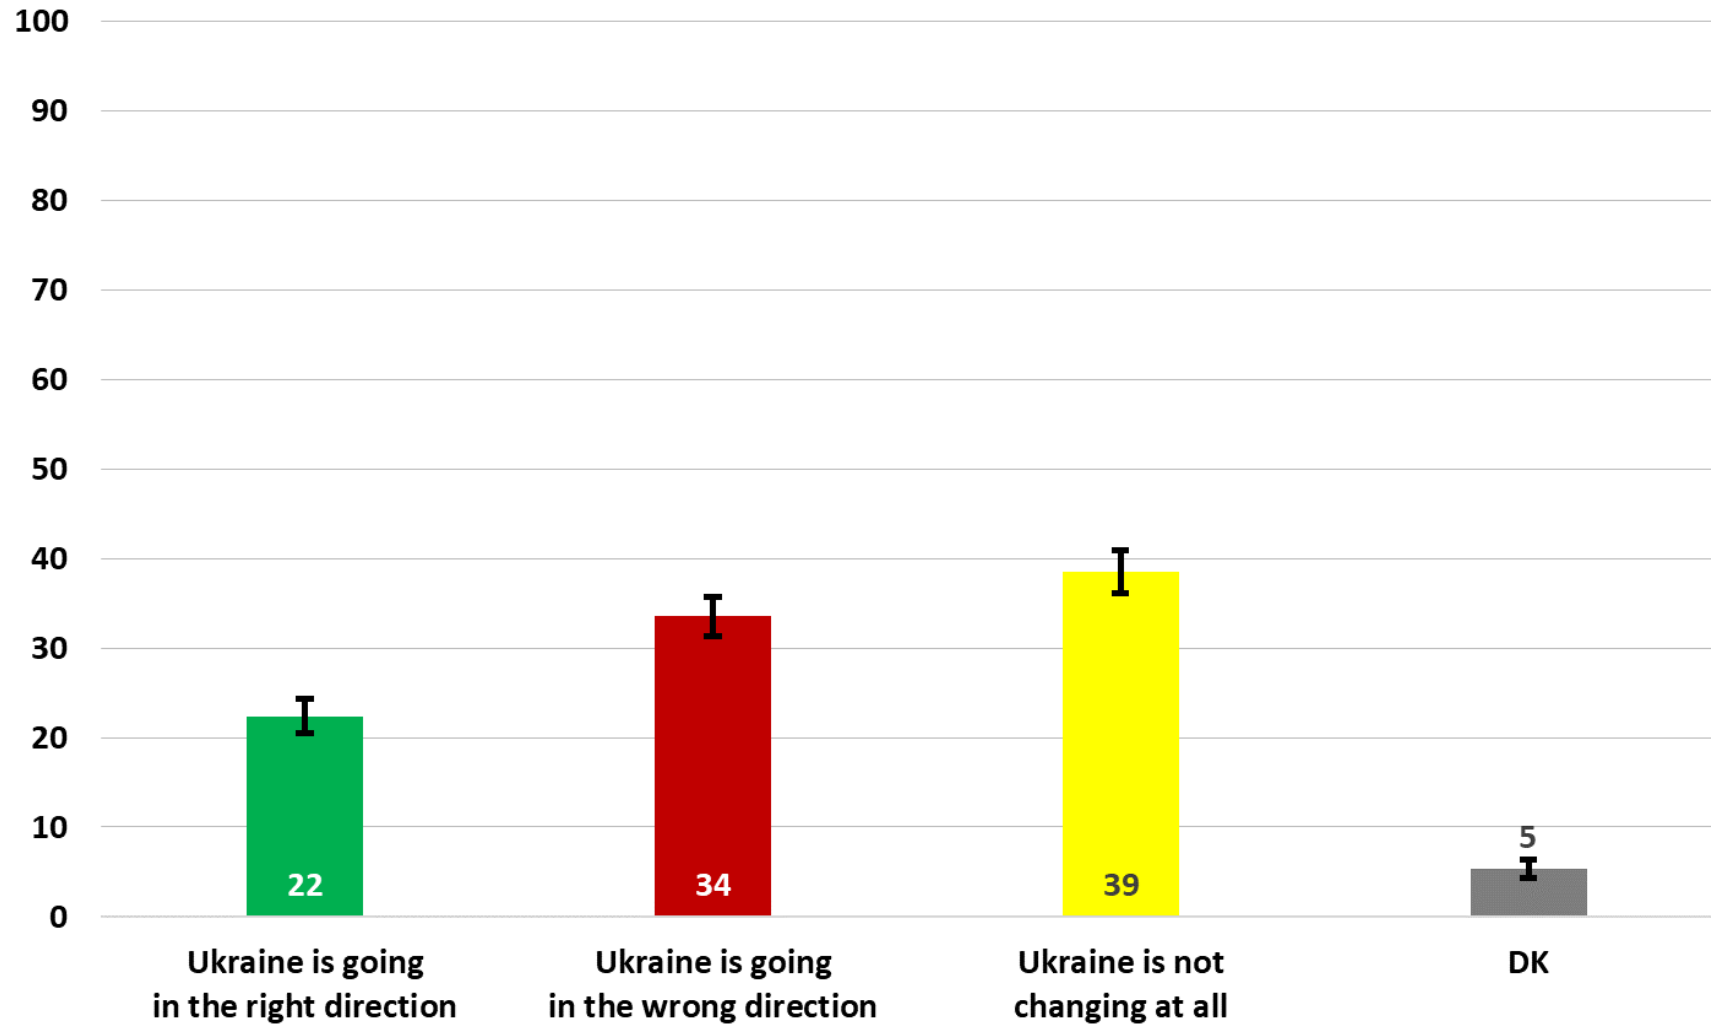

# GENERAL CONTEXT

# Since the start of the coronavirus outbreak in Ukraine in March 2020, would you say that in economic terms you and your family are...? (q9)

# In your opinion, Ukraine is going in the right direction, in the wrong direction, or not changing at all? (q6)

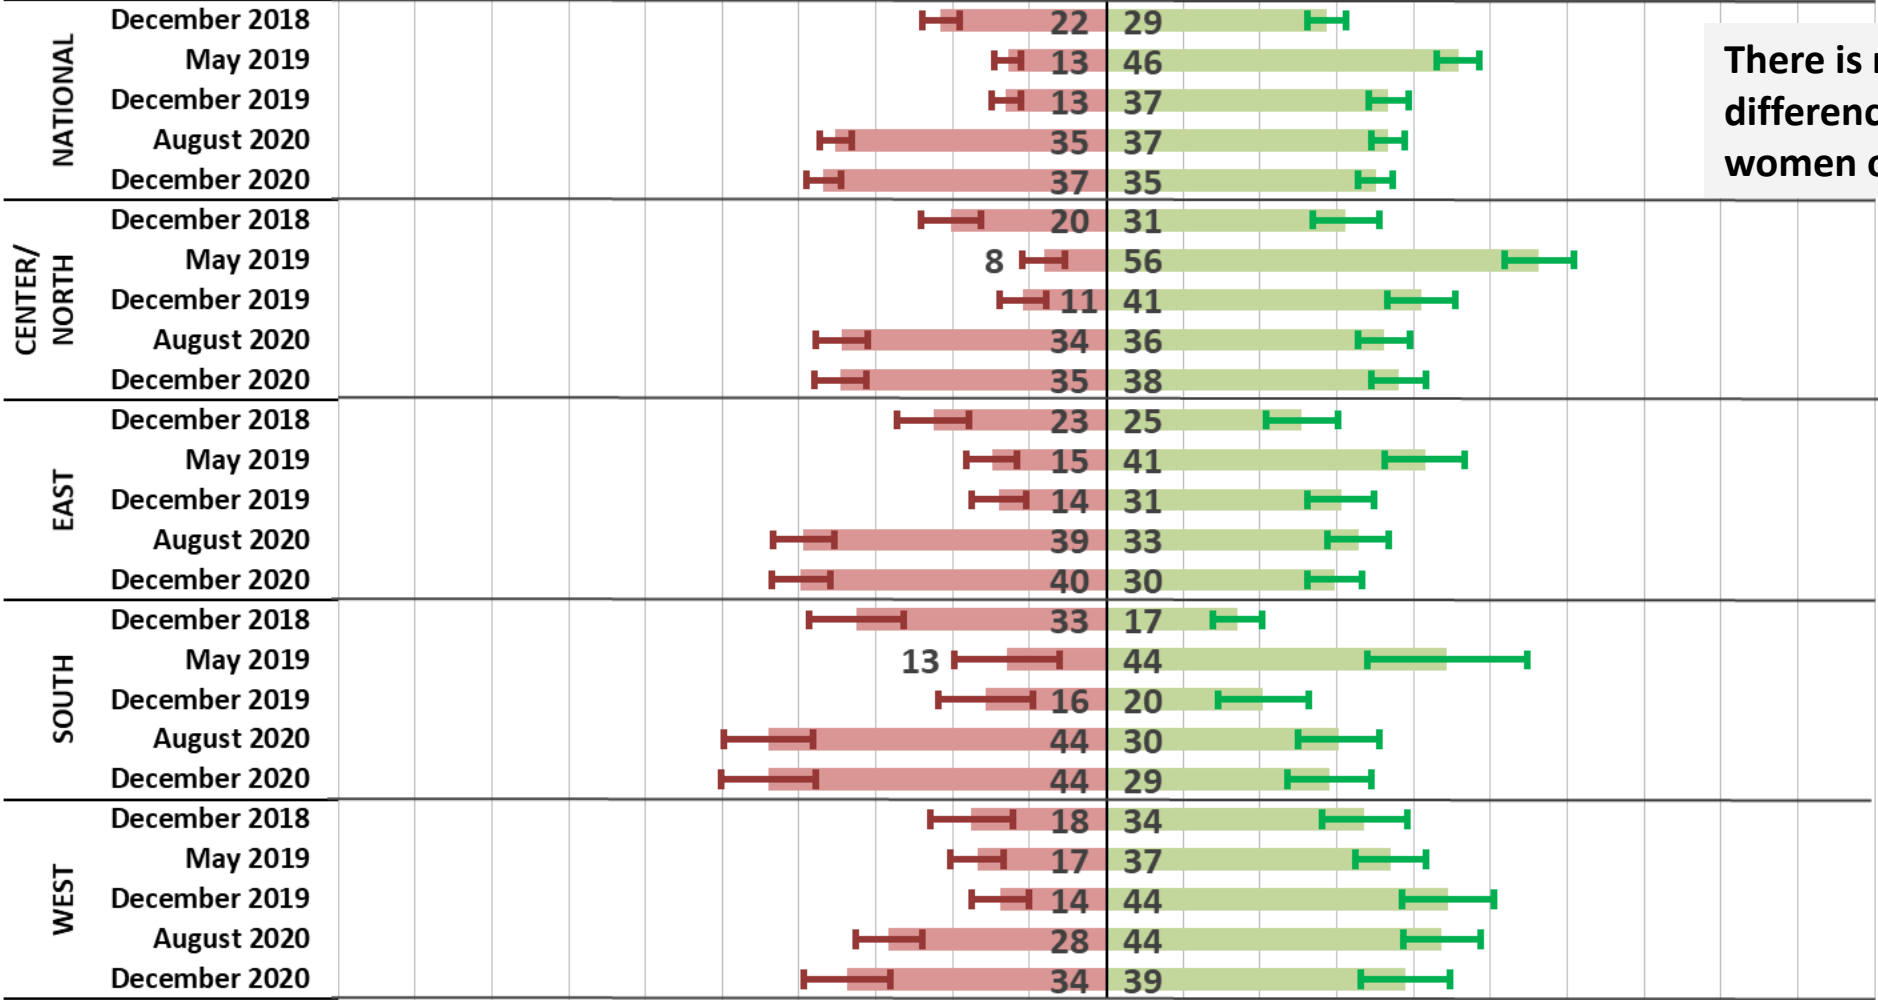

**August 2020:**  
right direction - 27%  
wrong direction - 35%  
no change - 33%

# Overall, do you expect the next generation to be ...? (q5 X Settlement)

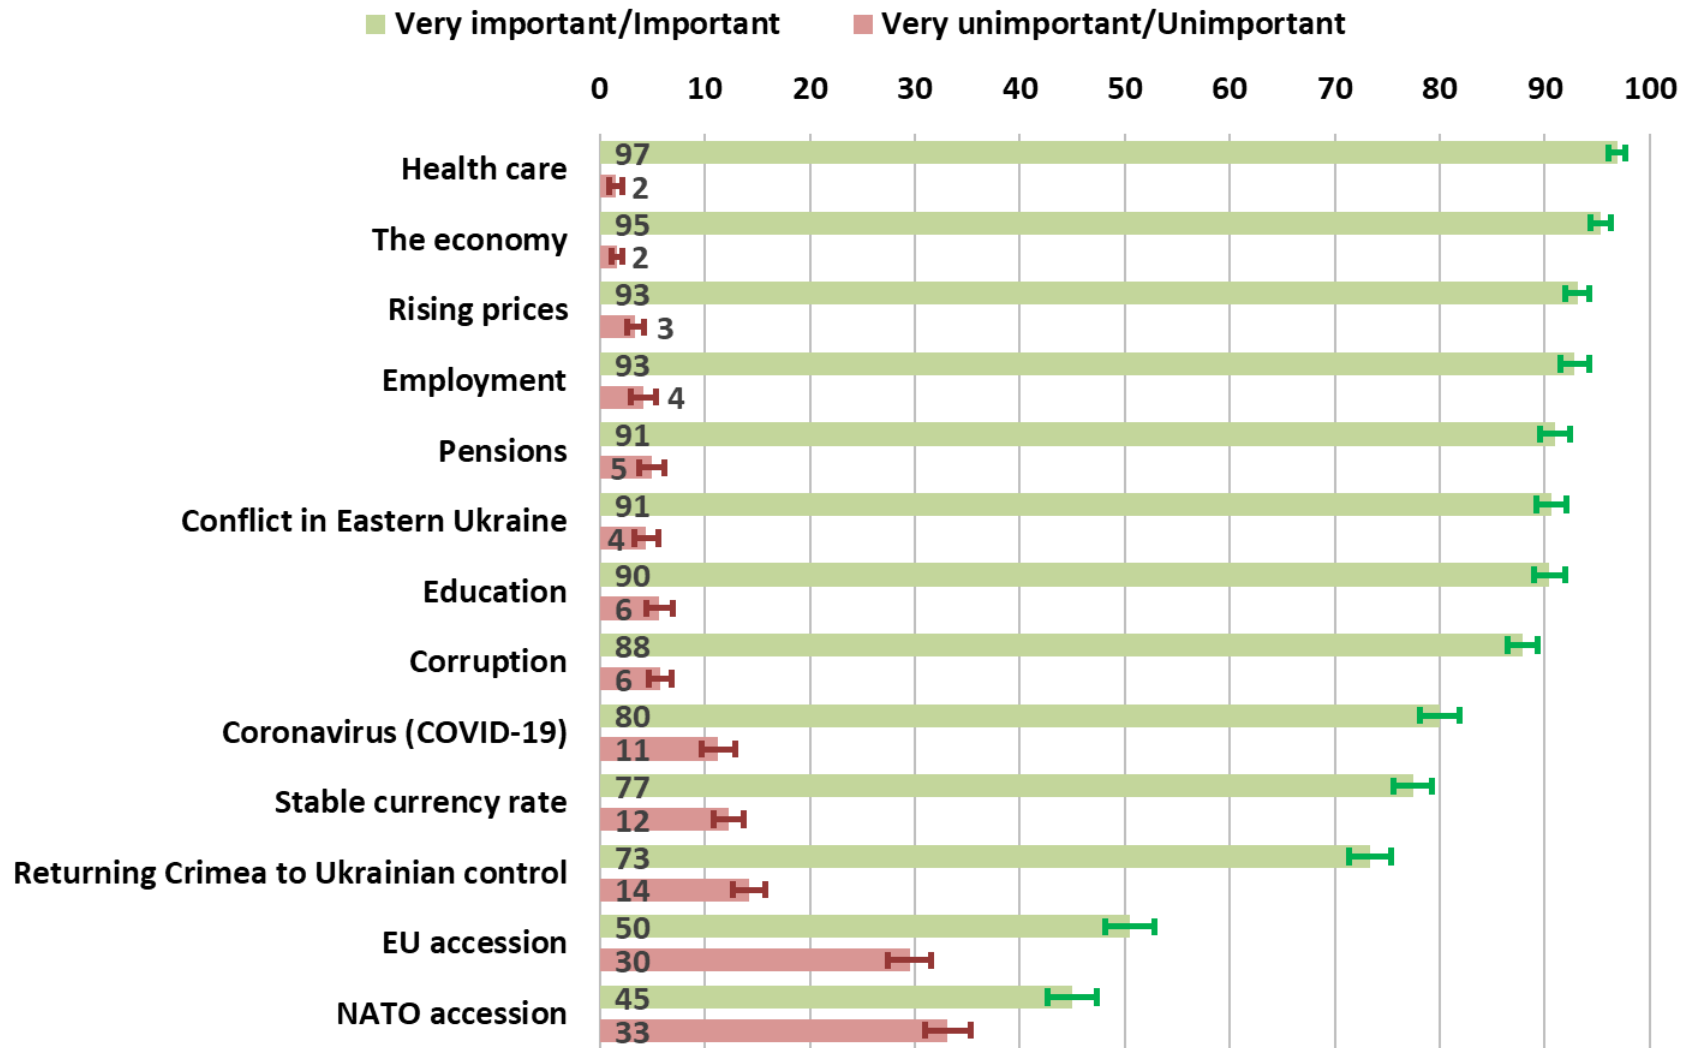

■ Better off than yours   ■ Worse off than yours

100 90 80 70 60 50 40 30 20 10 0 10 20 30 40 50 60 70 80 90 100

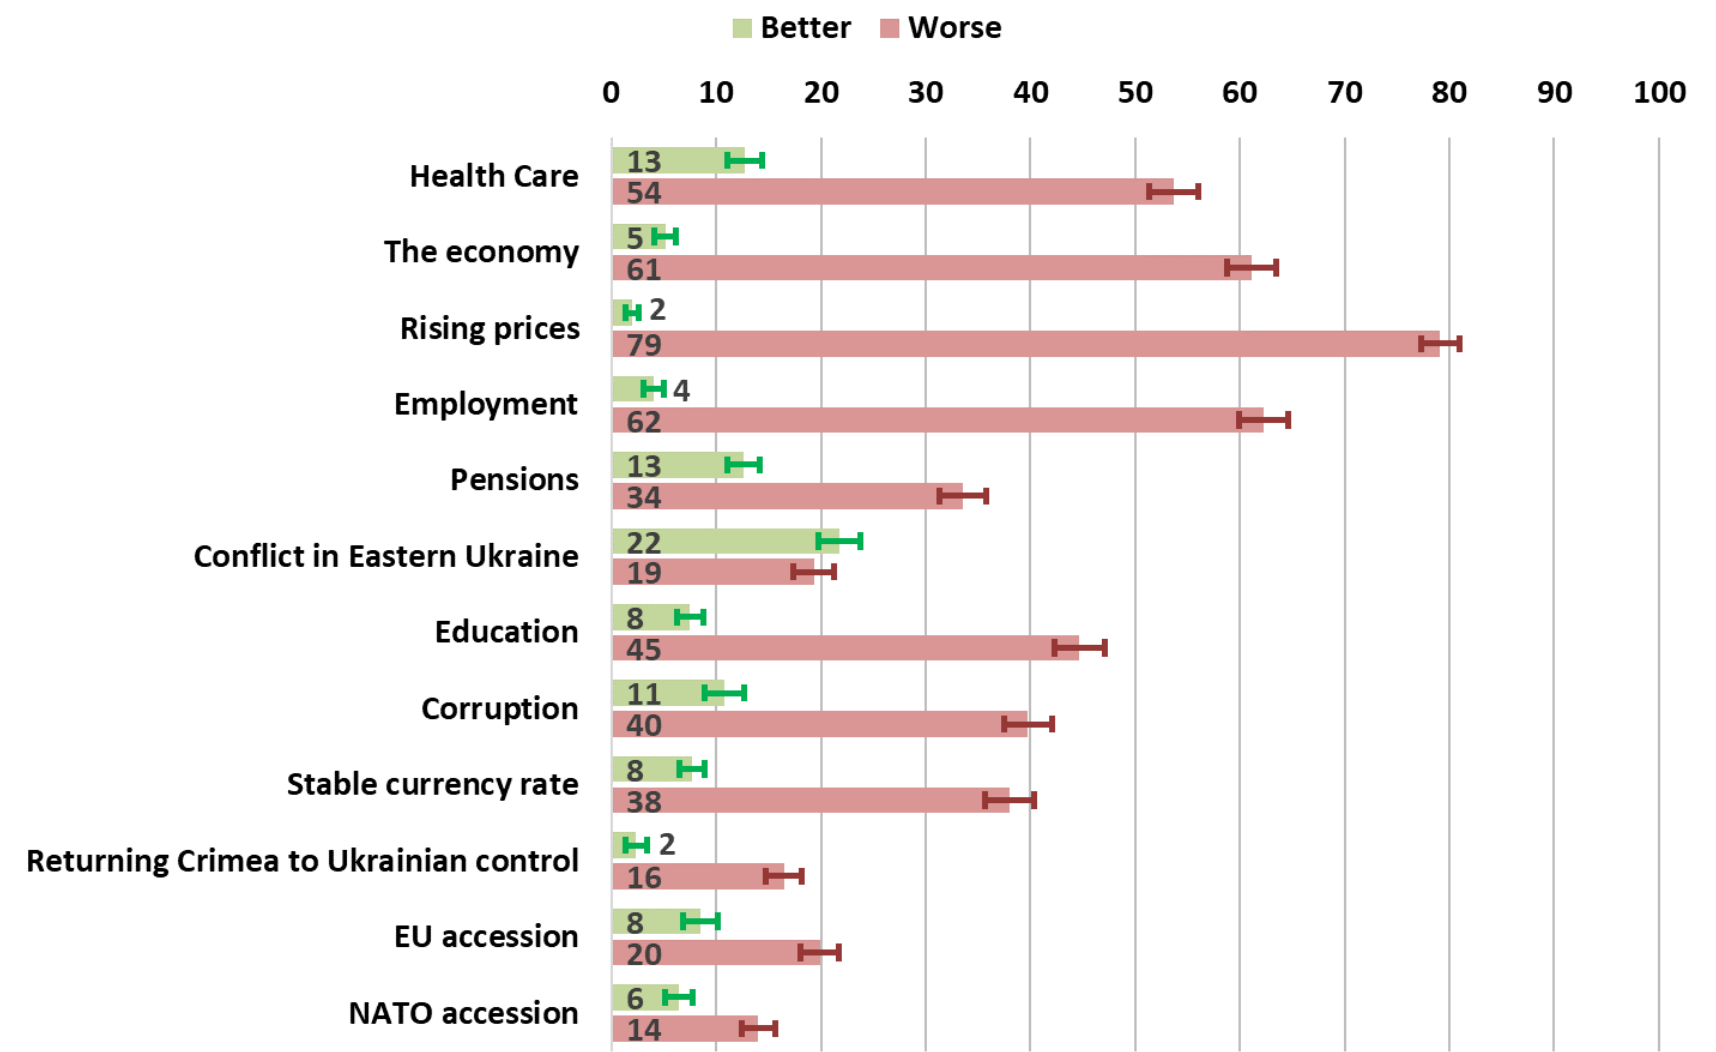

There is no statistical difference between men and women on this question

**For each of the following, please tell how important or unimportant it is to you and your family? (q1)**  
*“Very important/Important” and “Very unimportant/Unimportant”*

# How do you think the situation has changed in Ukraine since the 2019 presidential election? (q4)

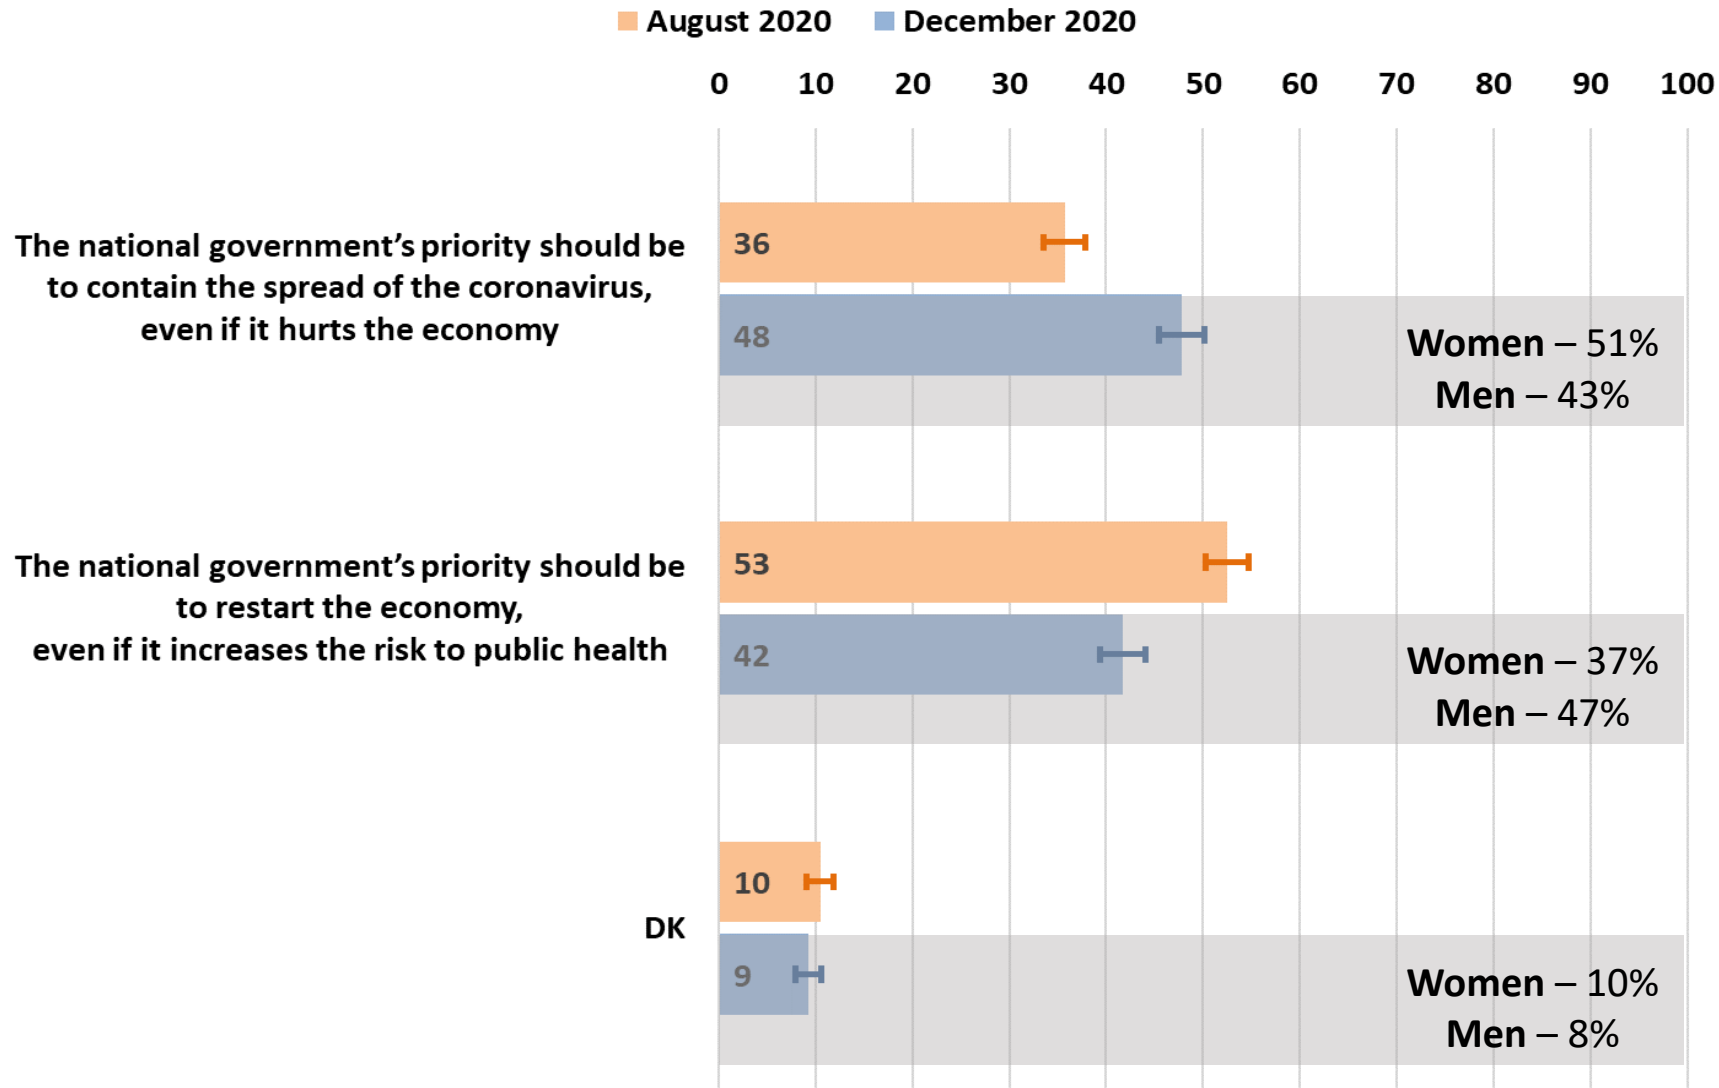

One answer per item

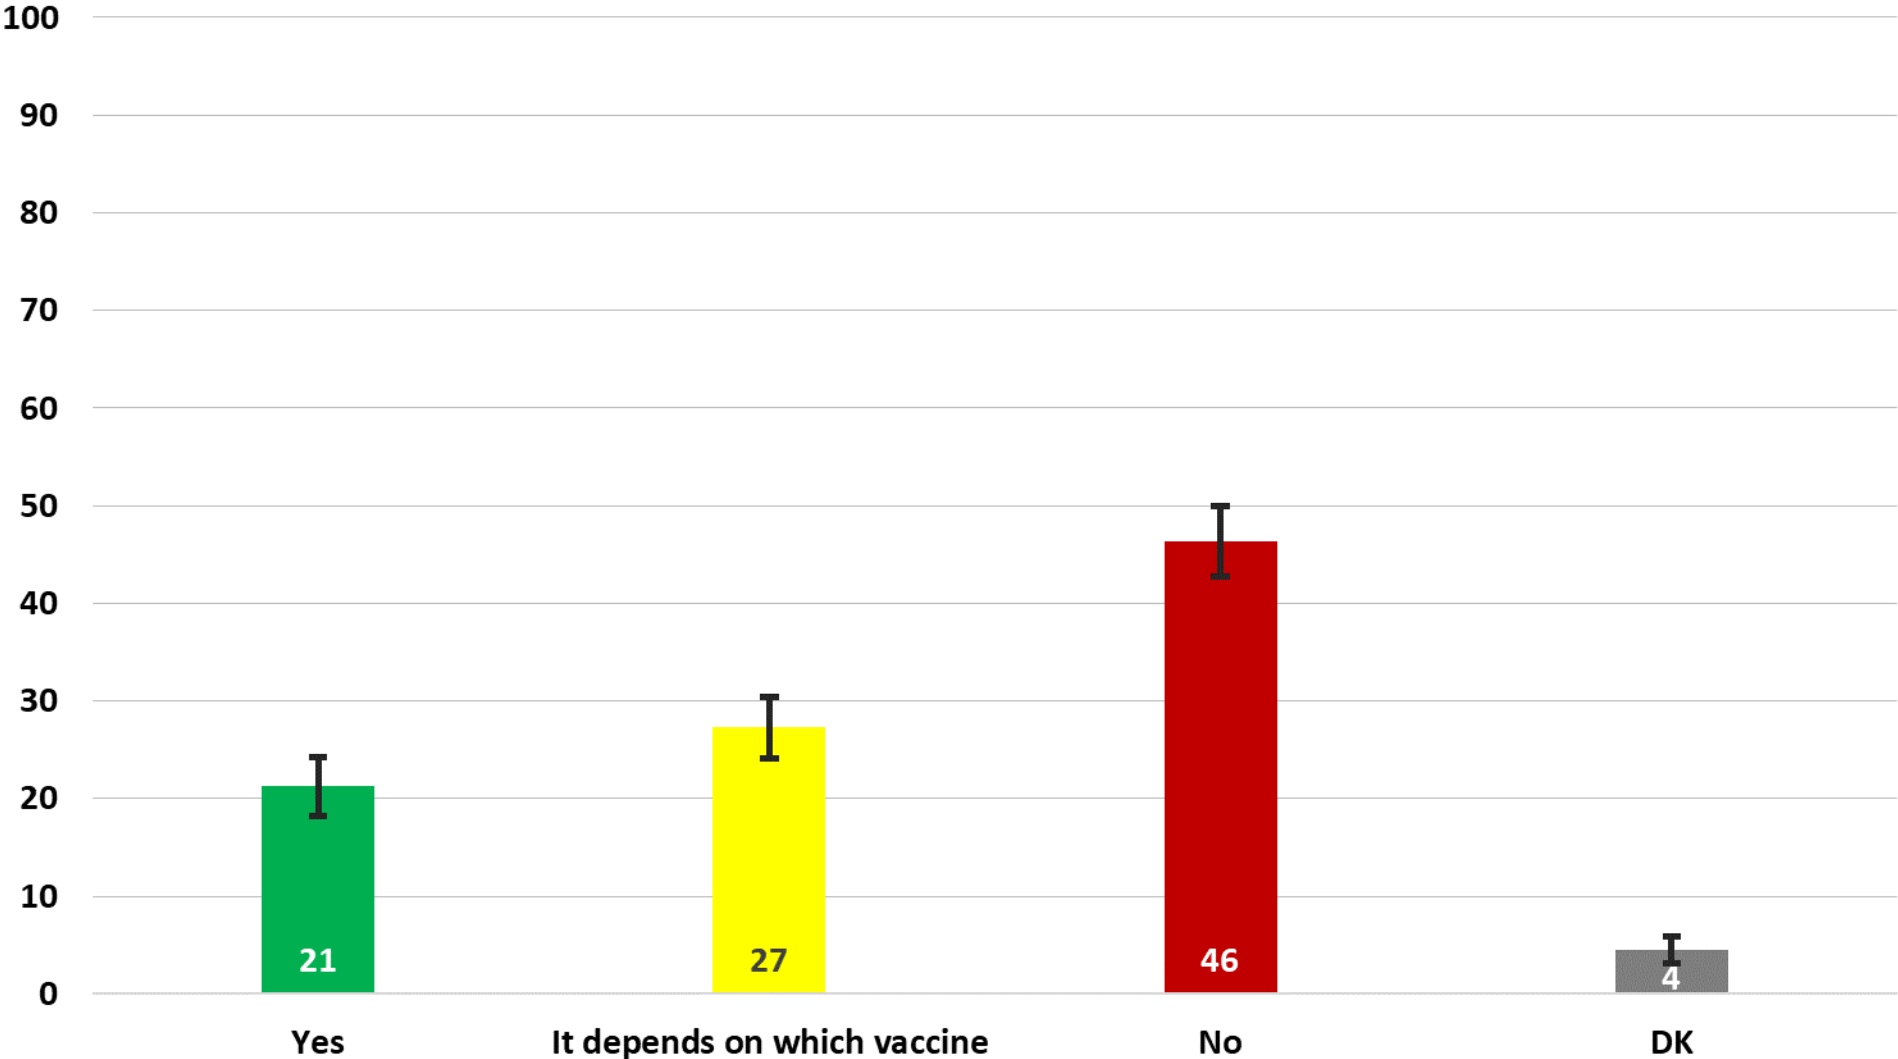

# COVID-19 AND THE VACCINE

# Which comes closer to your view? (q18)

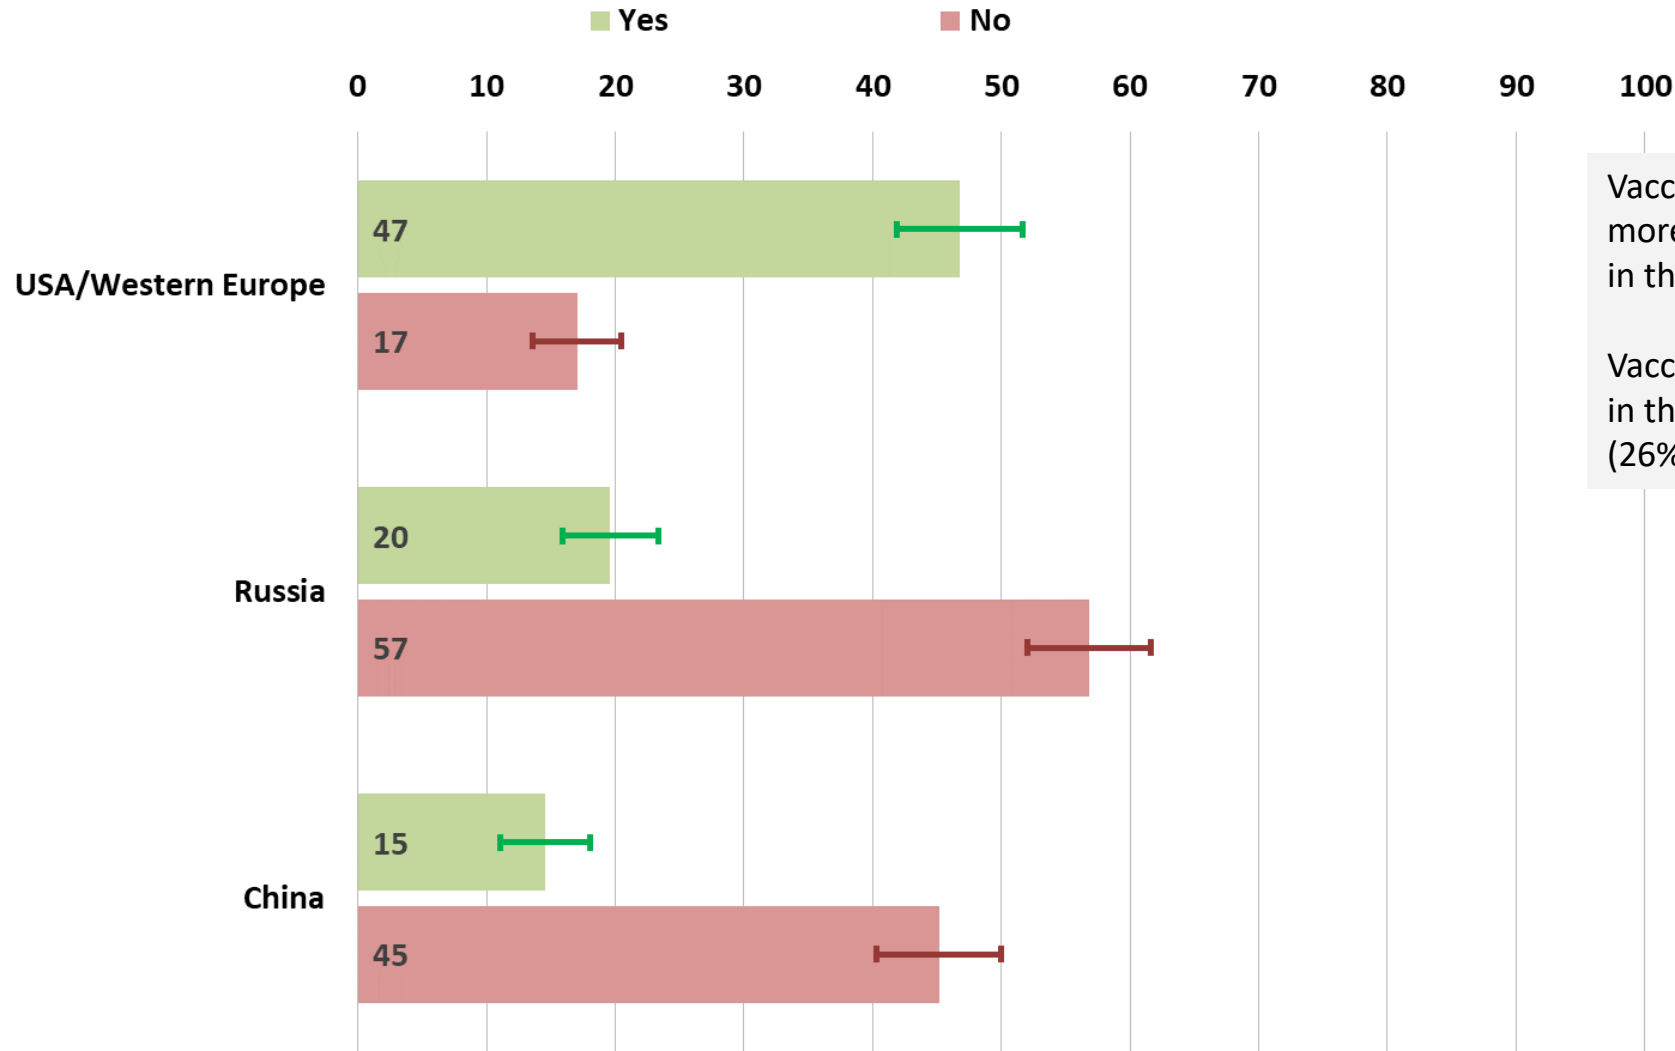

# When the COVID-19 vaccine becomes available in Ukraine, would you be willing to get vaccinated? (q2)

# Would you accept a vaccine developed in any of the following? (q3)

Of 48% who would be willing to get vaccinated (“Yes” + “It depends on the vaccine”)

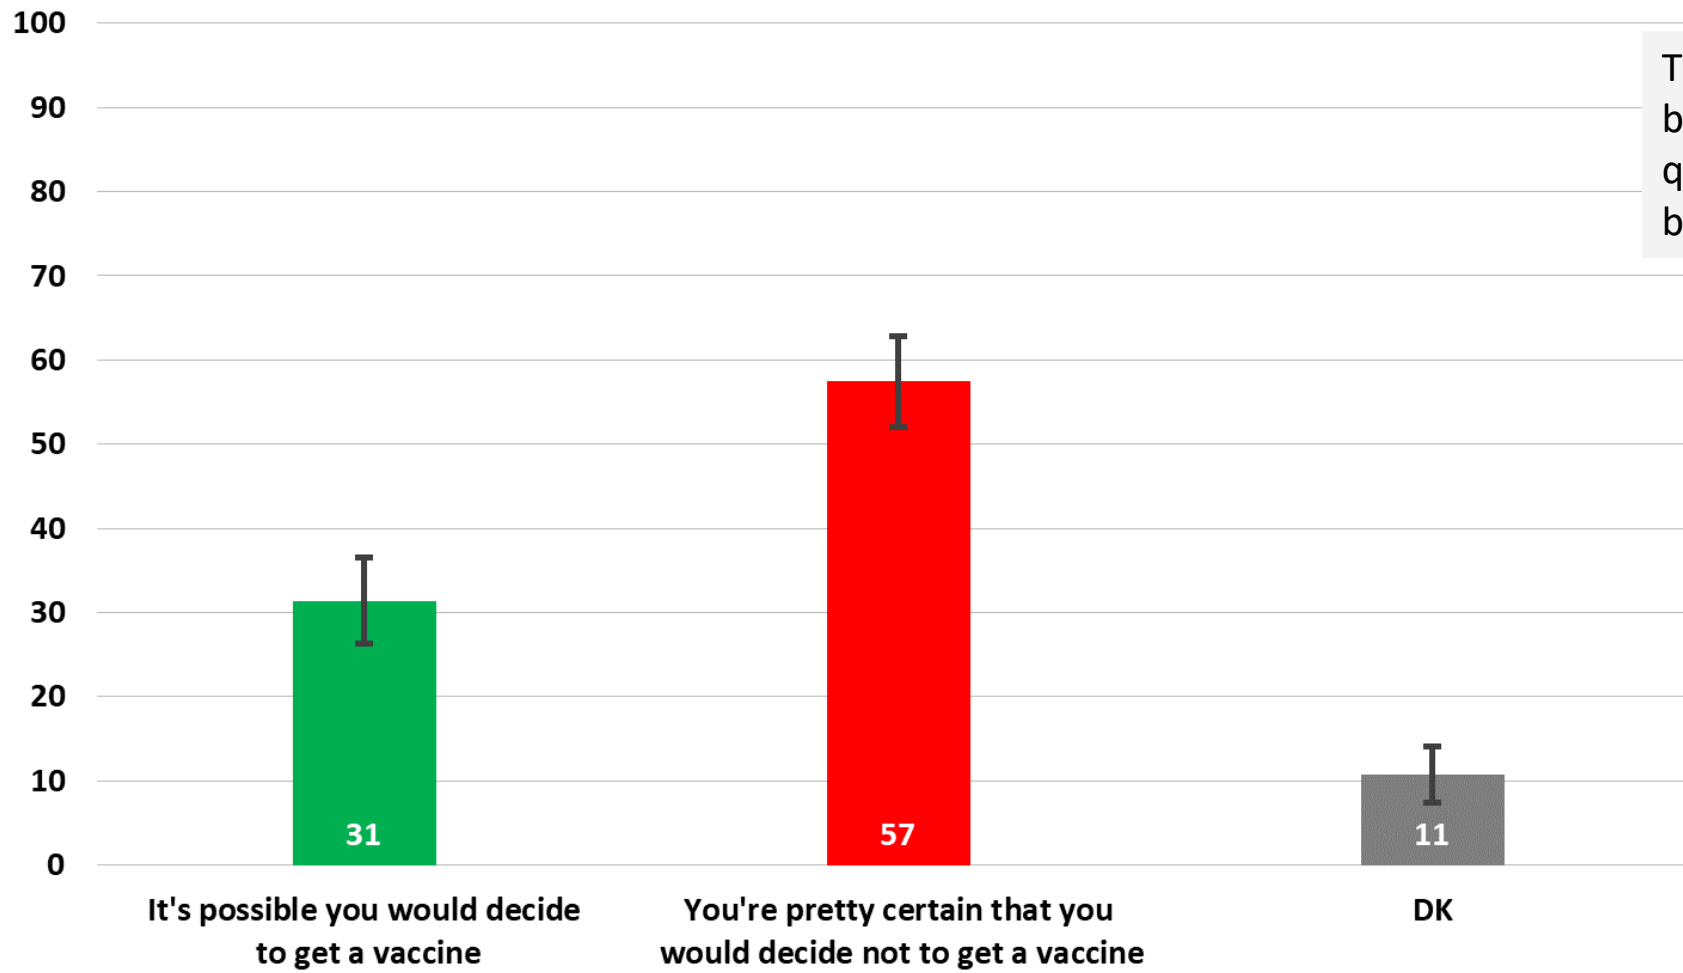

Vaccine from USA/Western Europe is more supported in the West (59%) and in the Center/North (47%)

Vaccine from Russia is more supported in the East (38%) and in the South (26%)

# Once people in Ukraine start getting a vaccine for the coronavirus and there is more information about it, would you say.... (q4)

*Of 46% who would not be willing to get vaccinated*

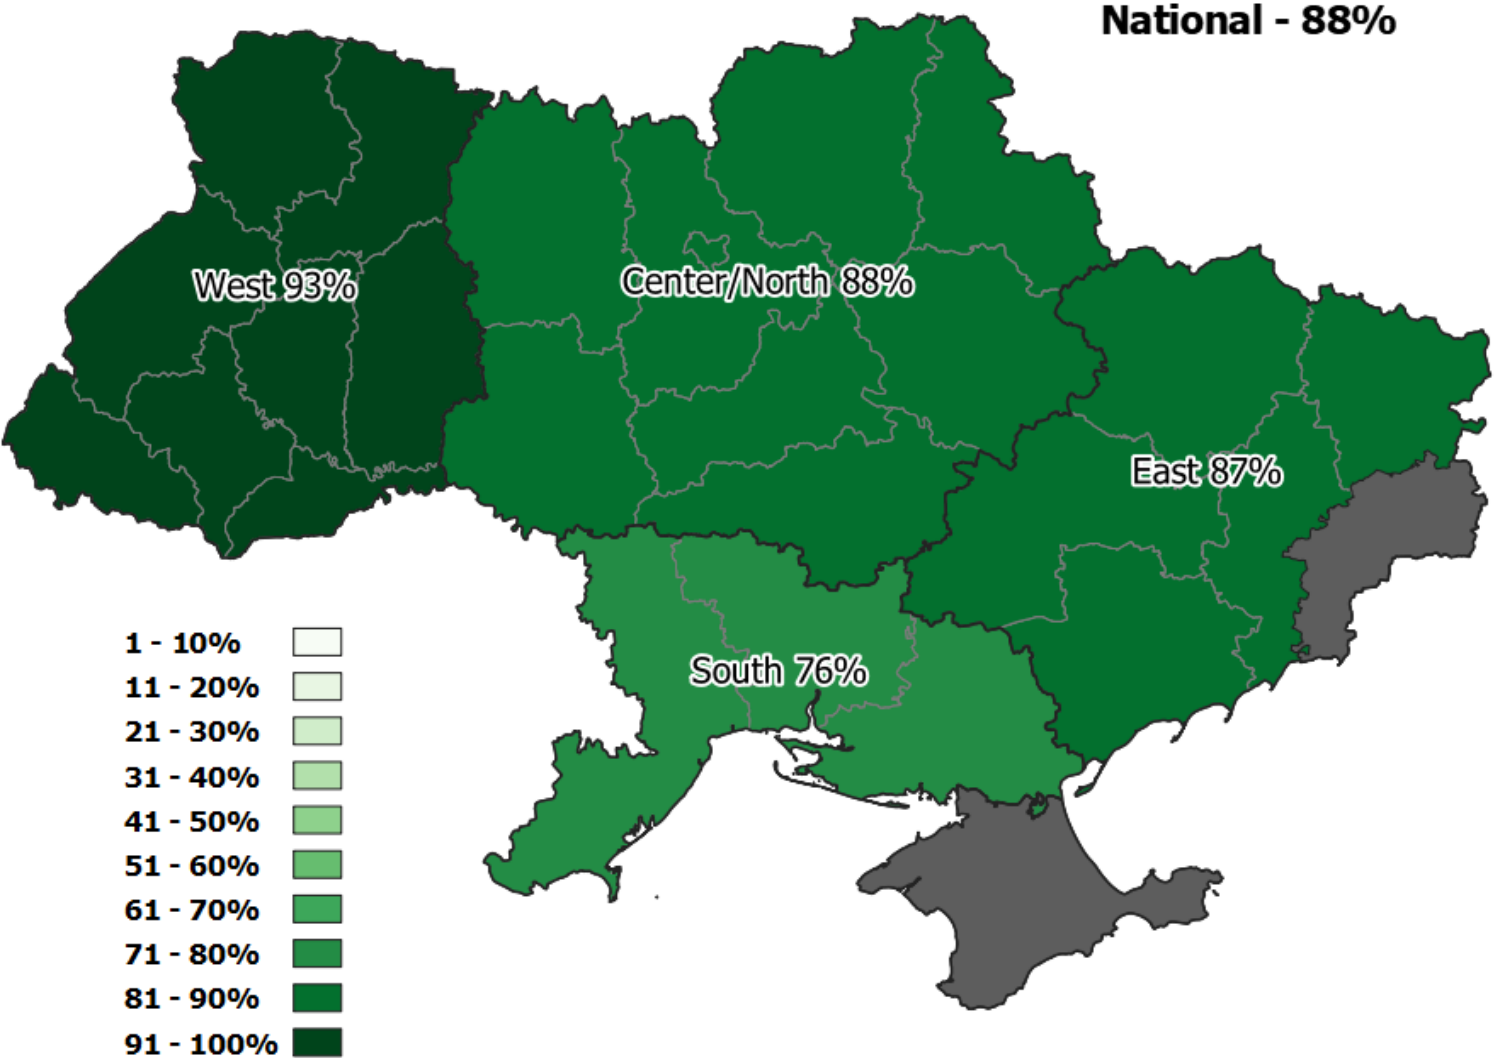

There is no statistical difference between men and women on this question, nor is there a difference between regions and age groups

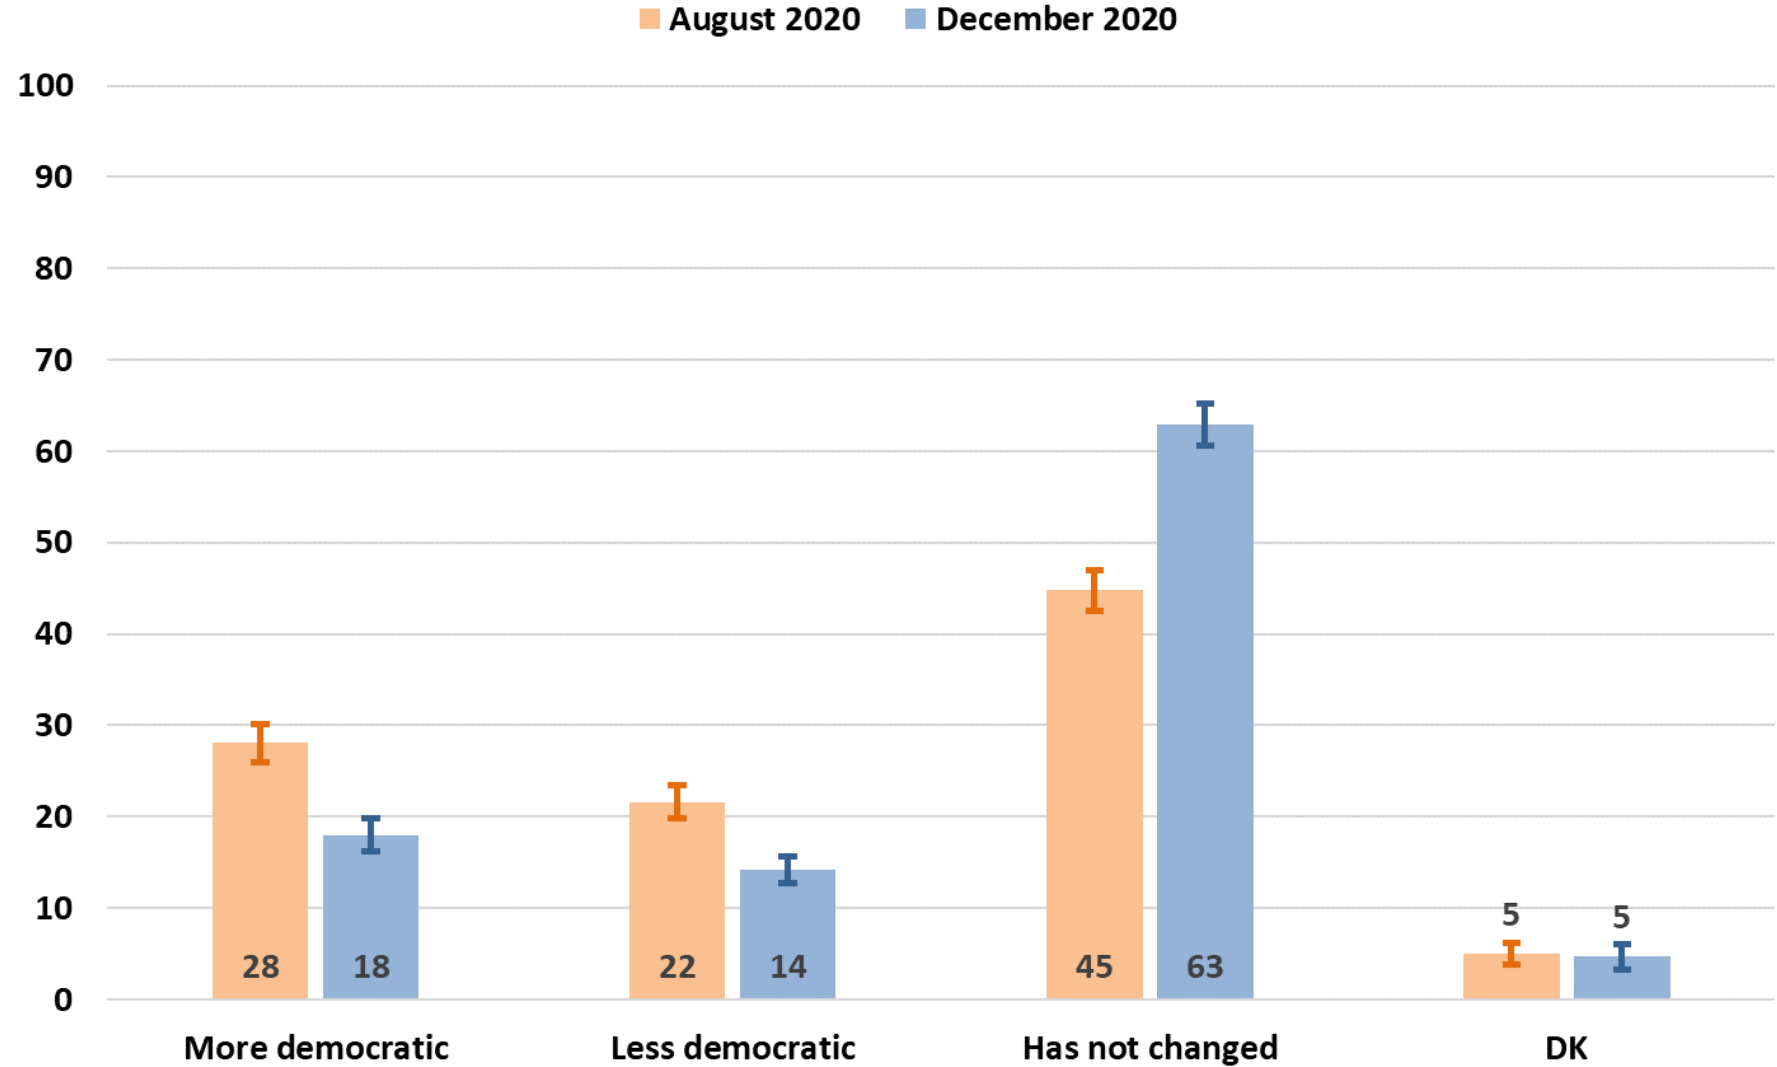

# DEMOCRACY AND GENDER

# How important is it to you that Ukraine becomes a fully functioning democracy? (q8 X Settlement)

*“Very important/Important” only*

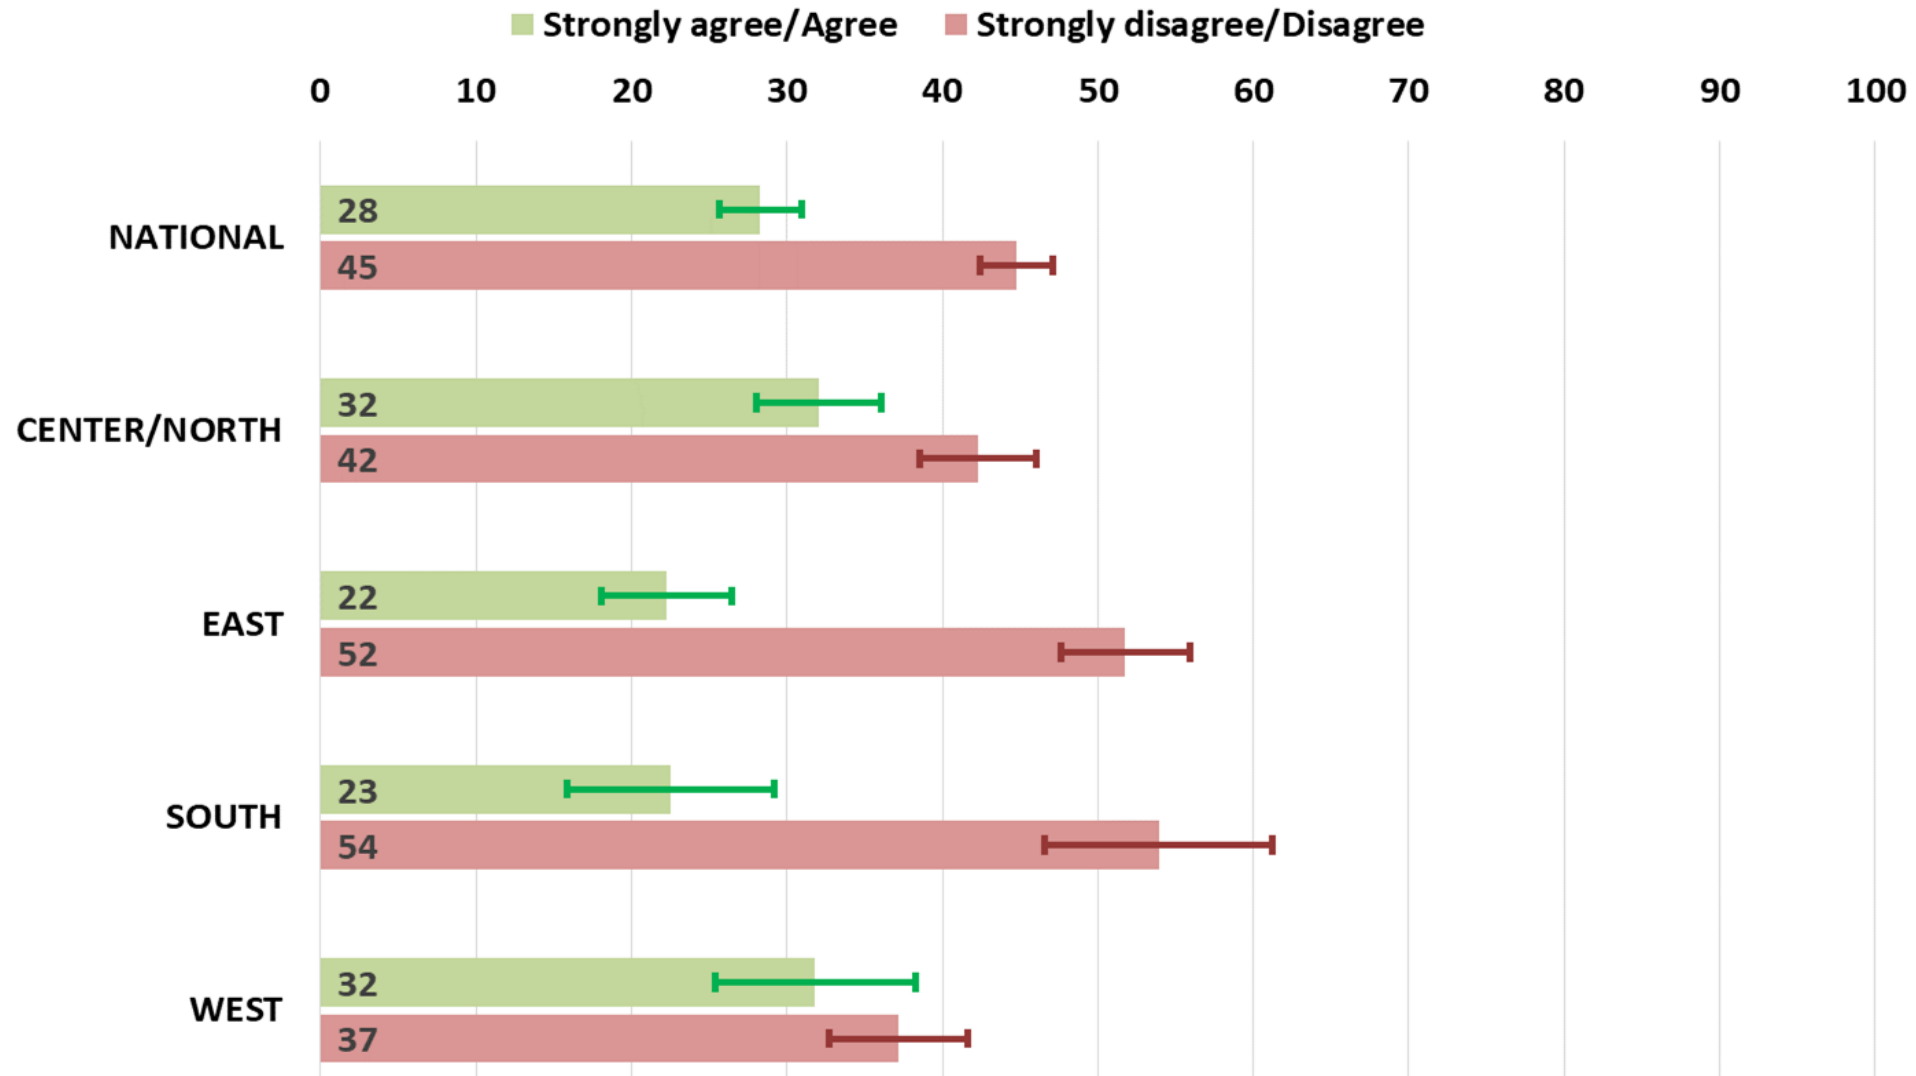

# Since Volodymyr Zelenskyy became President, would you say Ukraine has become more democratic, less democratic or it has not changed? (q13)

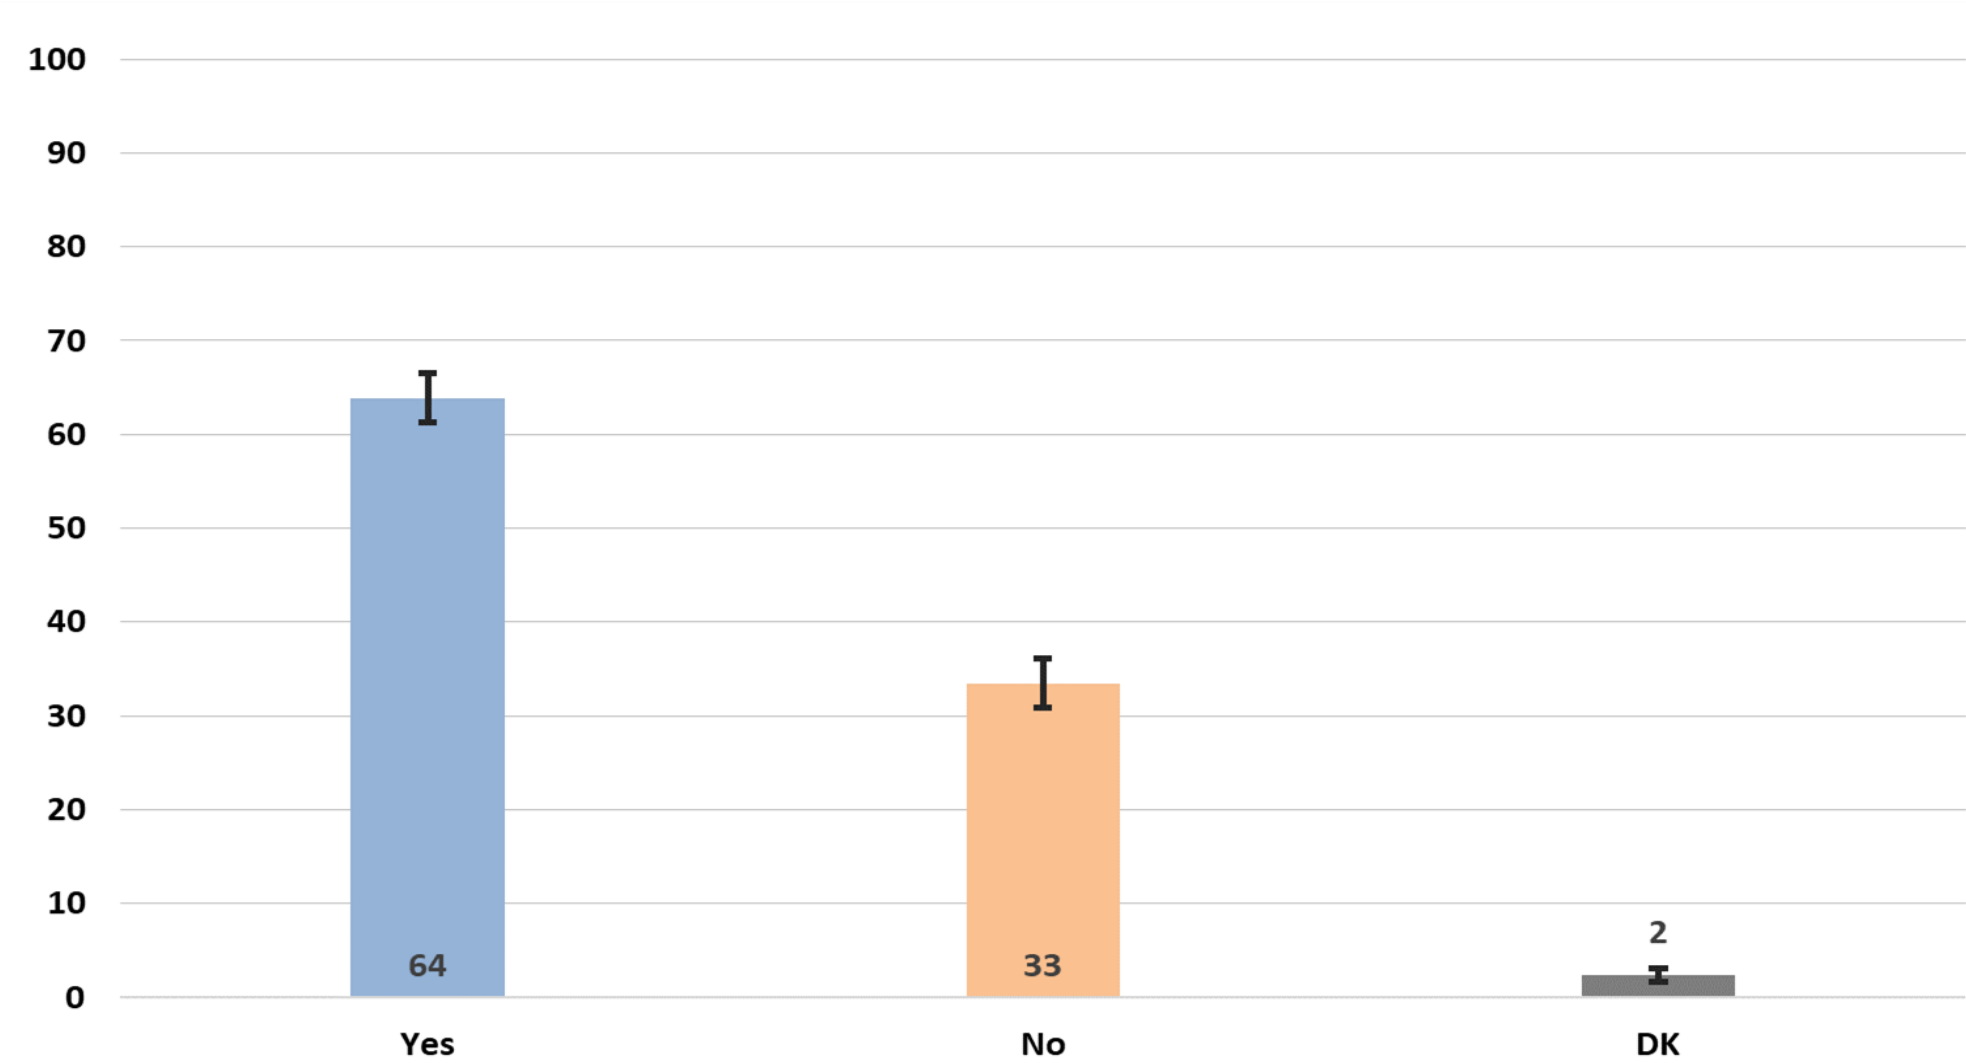

# To what extent do you agree or disagree that people like you can impact the way the national authorities work? (q12 X Settlement)

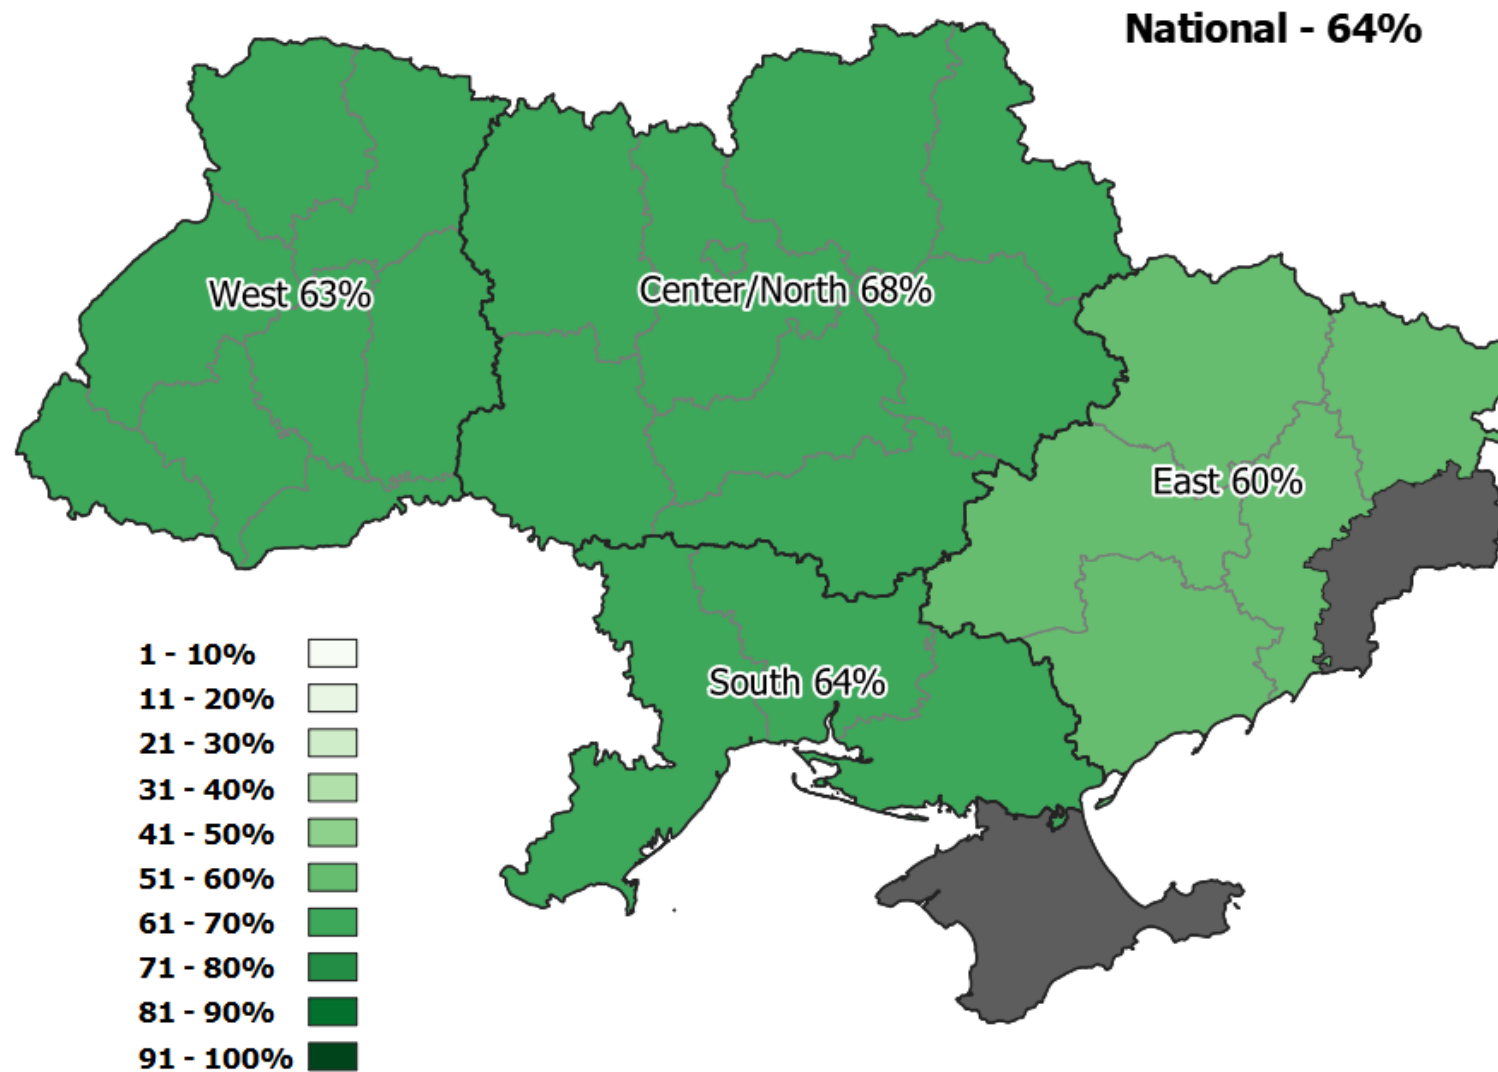

**If the government were interested in hearing your opinion on an issue that matters to you, would you be willing to provide your input? (q7)**

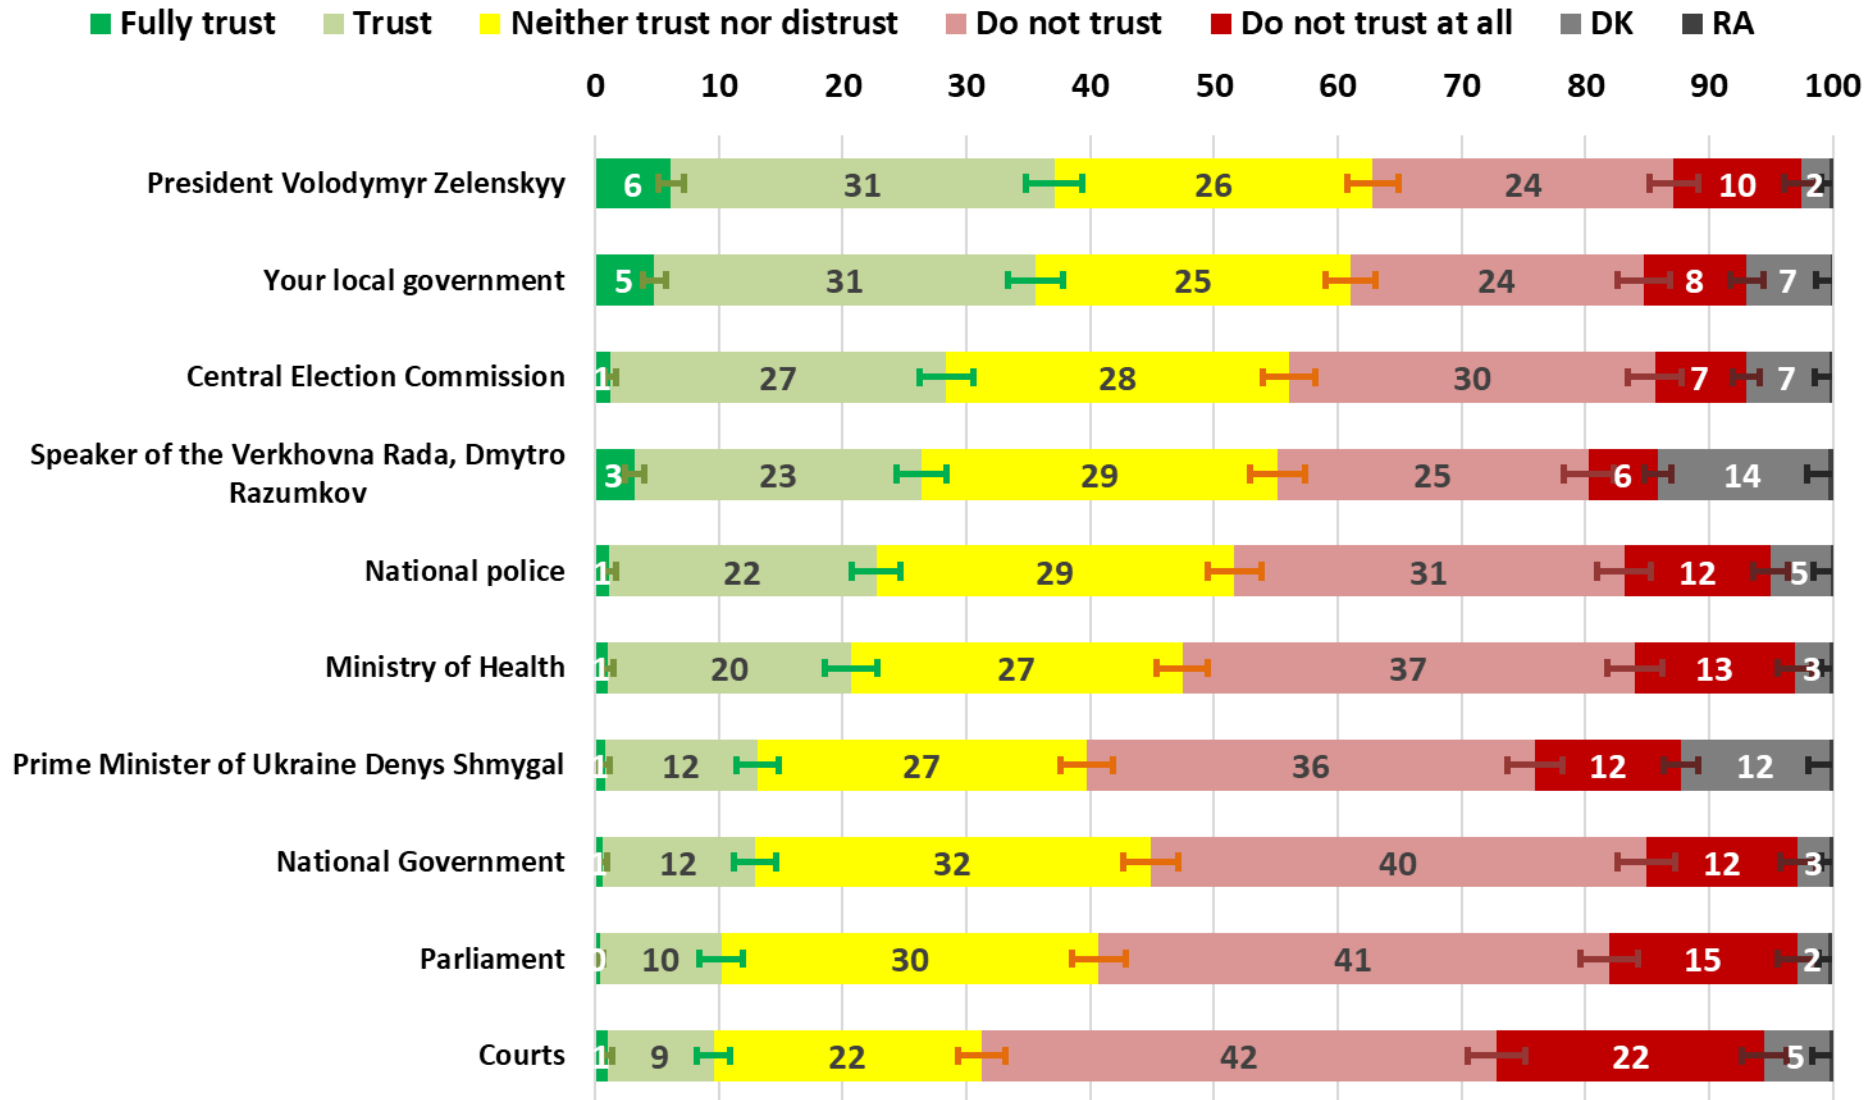

# Who should be more involved in political life, men or women? (q23 X Settlement)

*“Men slightly more than women”, “Men and women equally”, “Men slightly less than women” only*

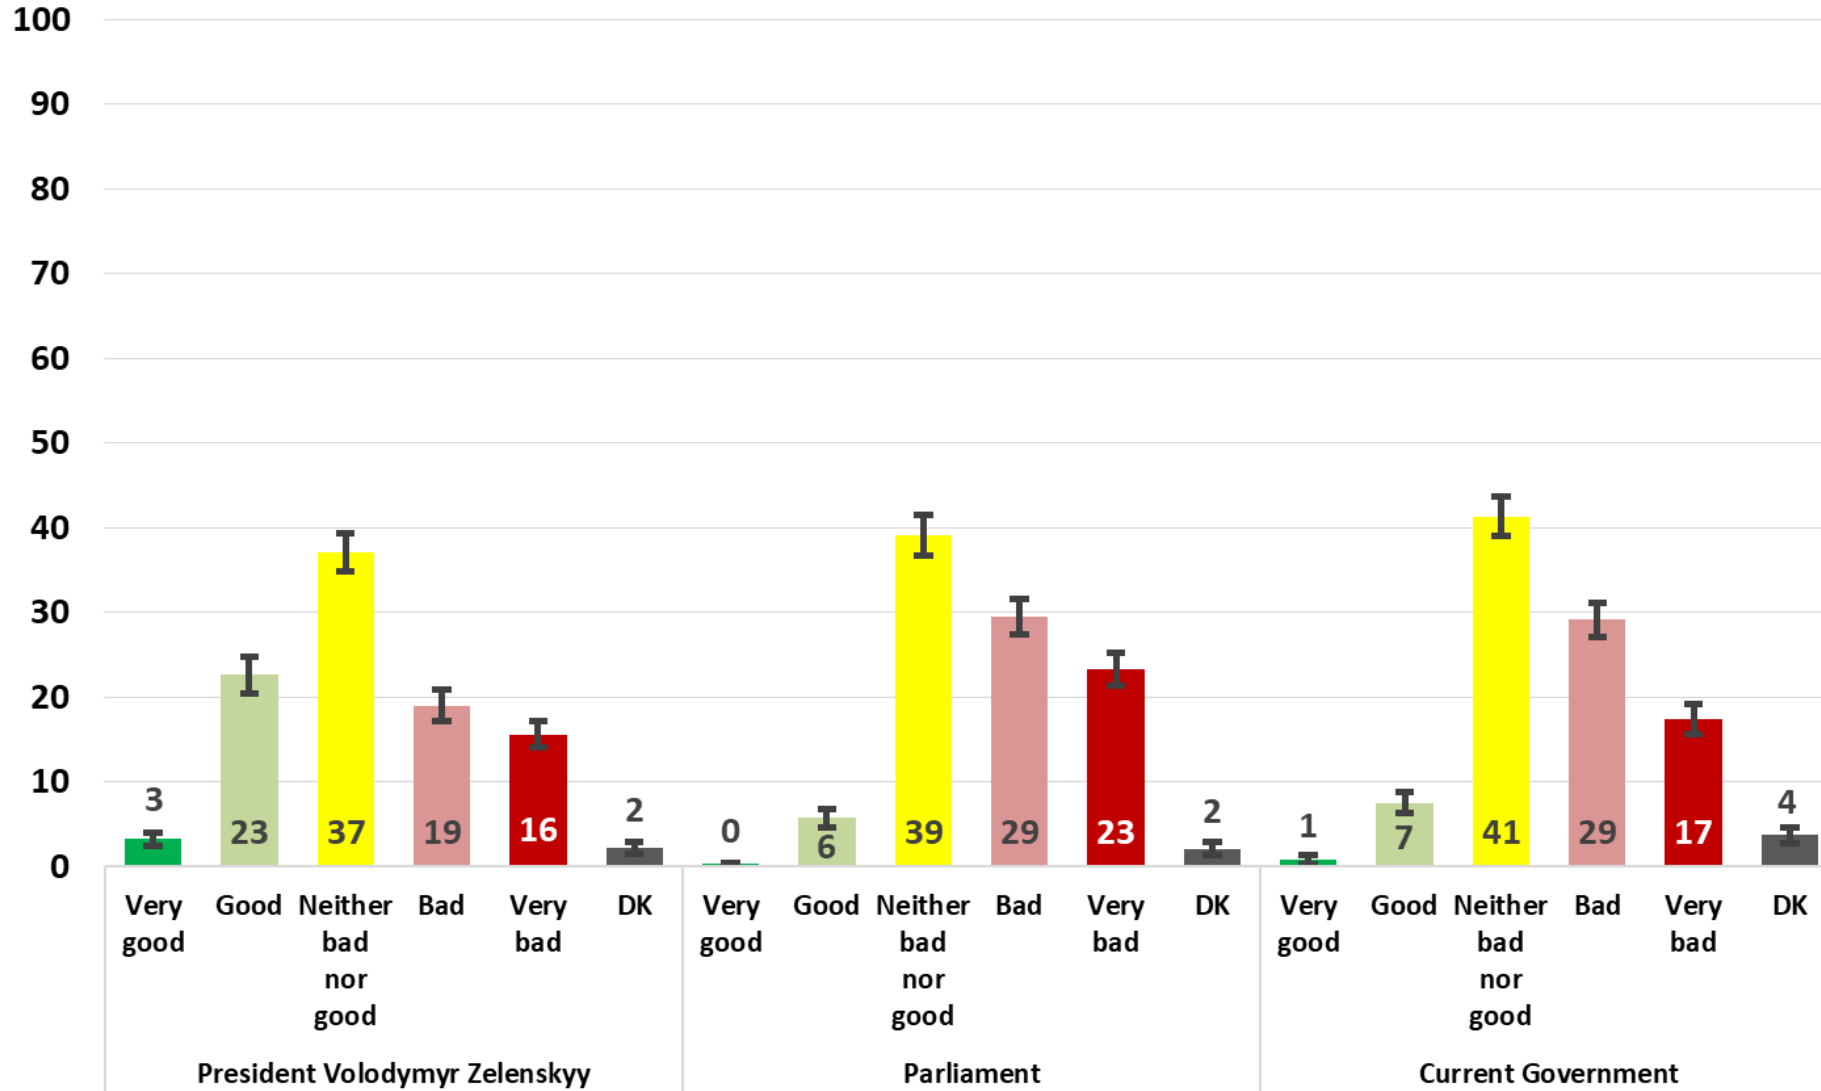

# GOVERNMENT PERFORMANCE AND TRUST

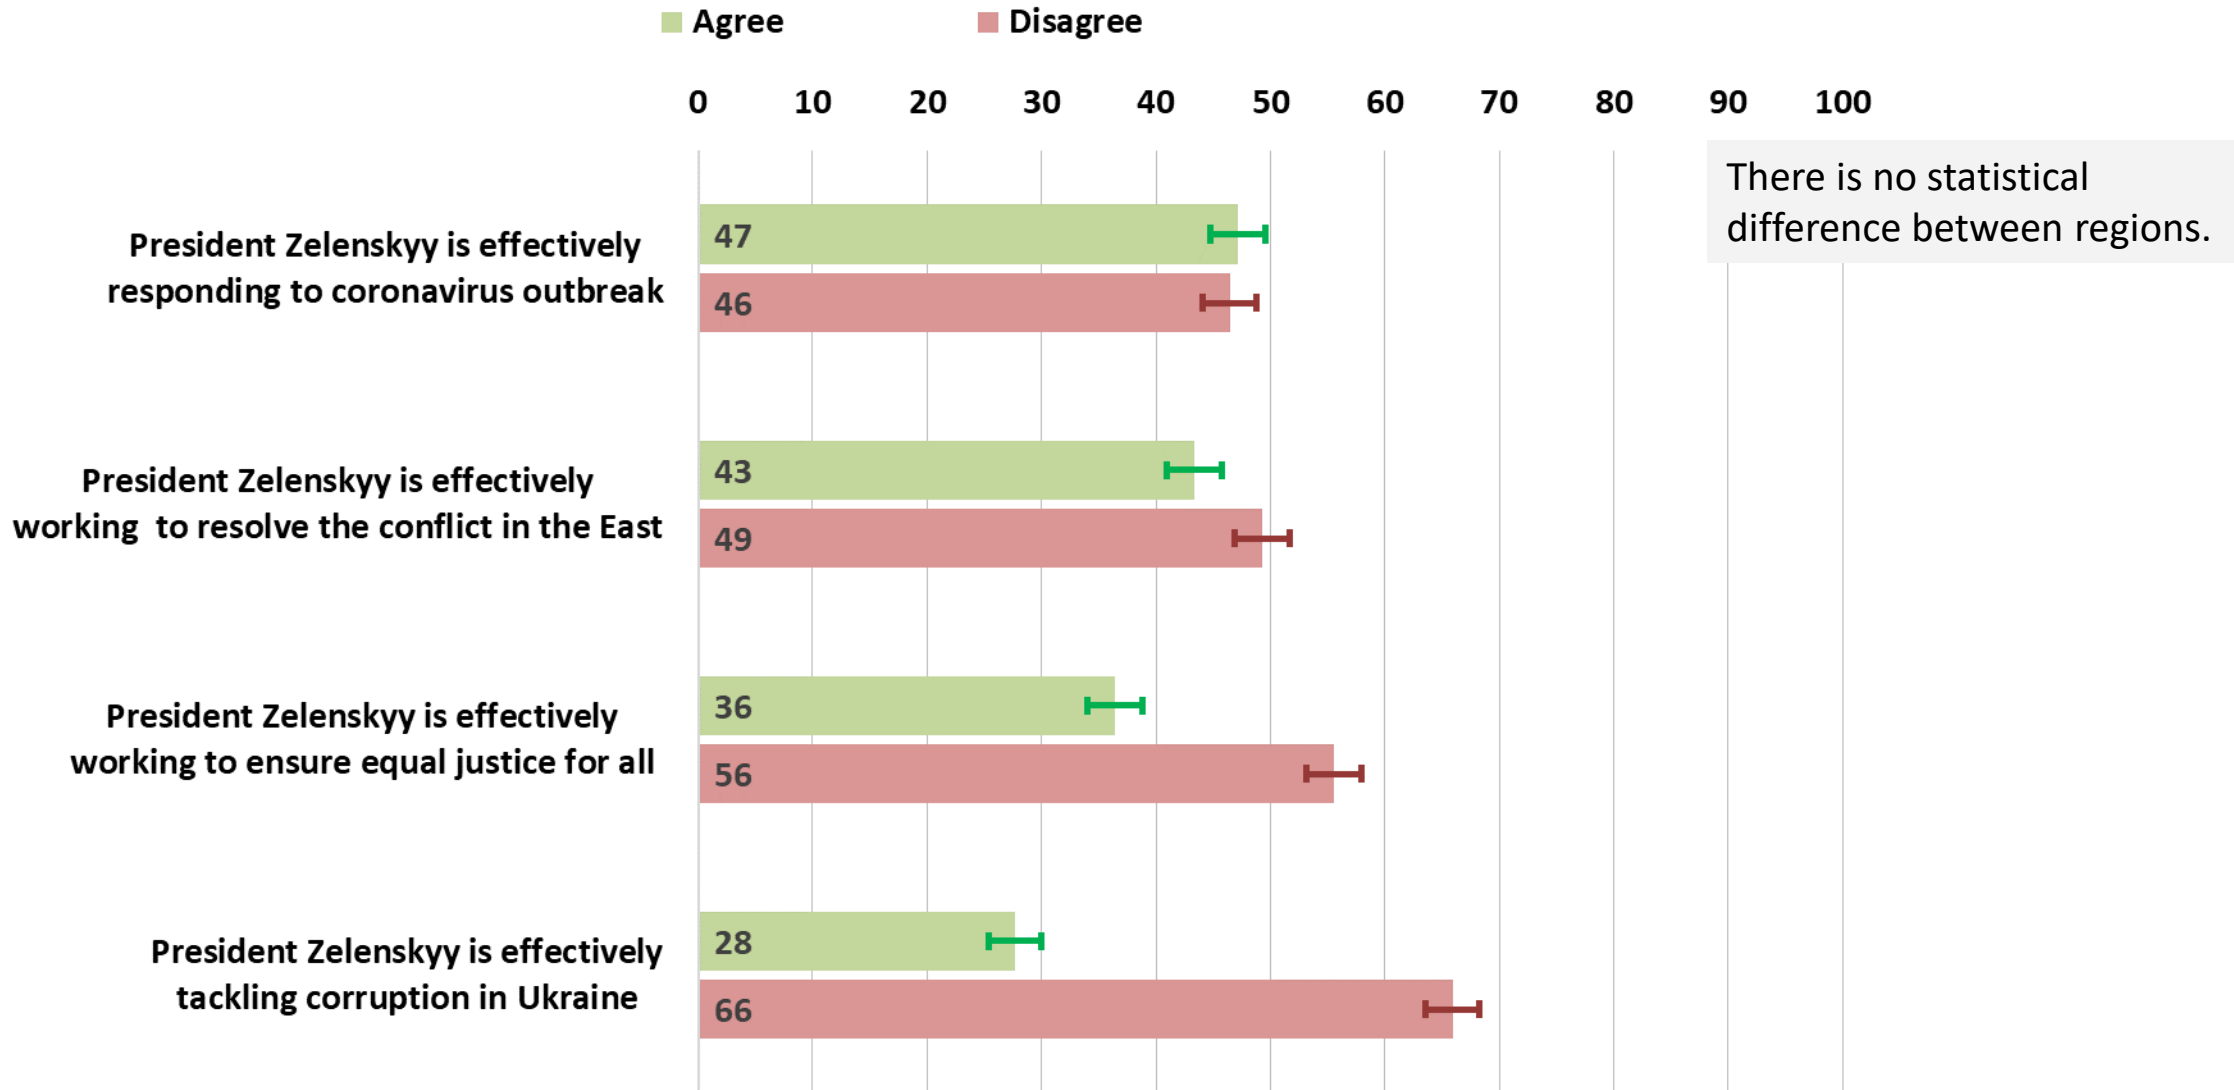

# To what extent, if at all, do you trust the following? (q16)

# How would you rate President's/Parliament's/Current Government's performance so far? (q11, 14, 15)

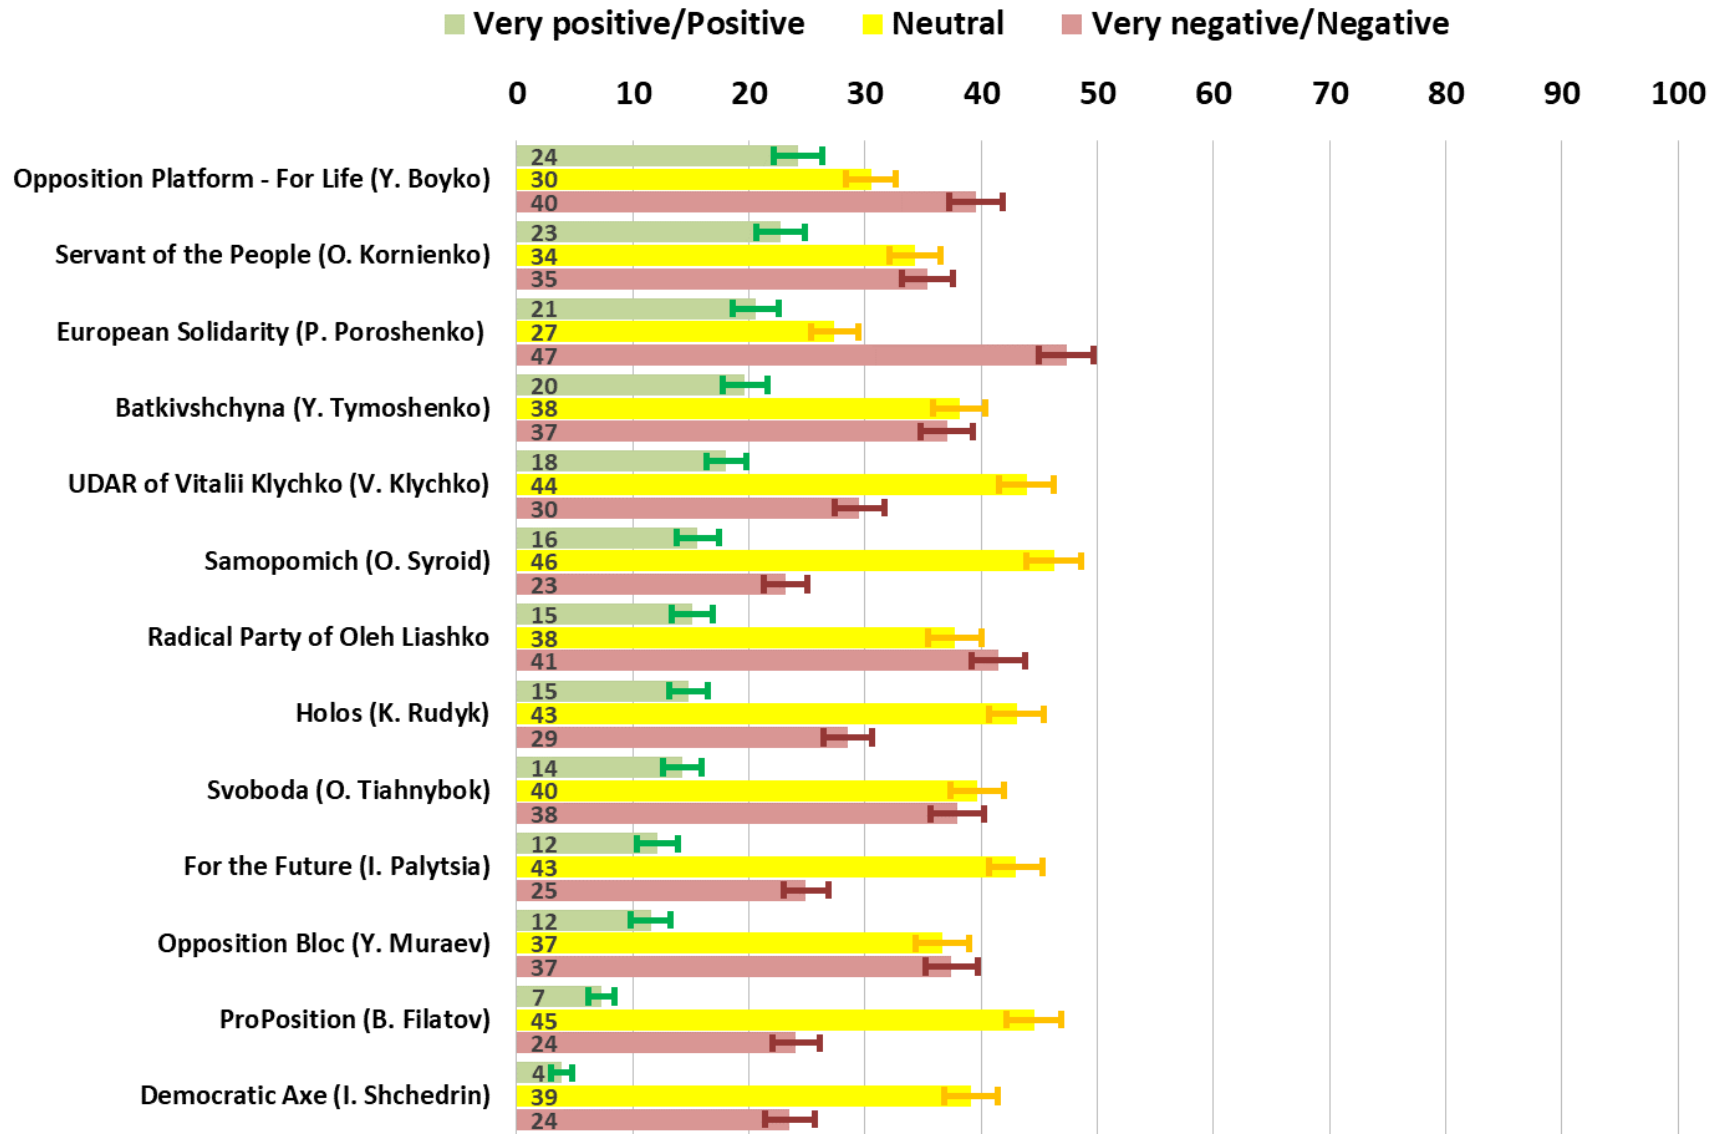

# How much do you agree or disagree with the following statements? (q12)

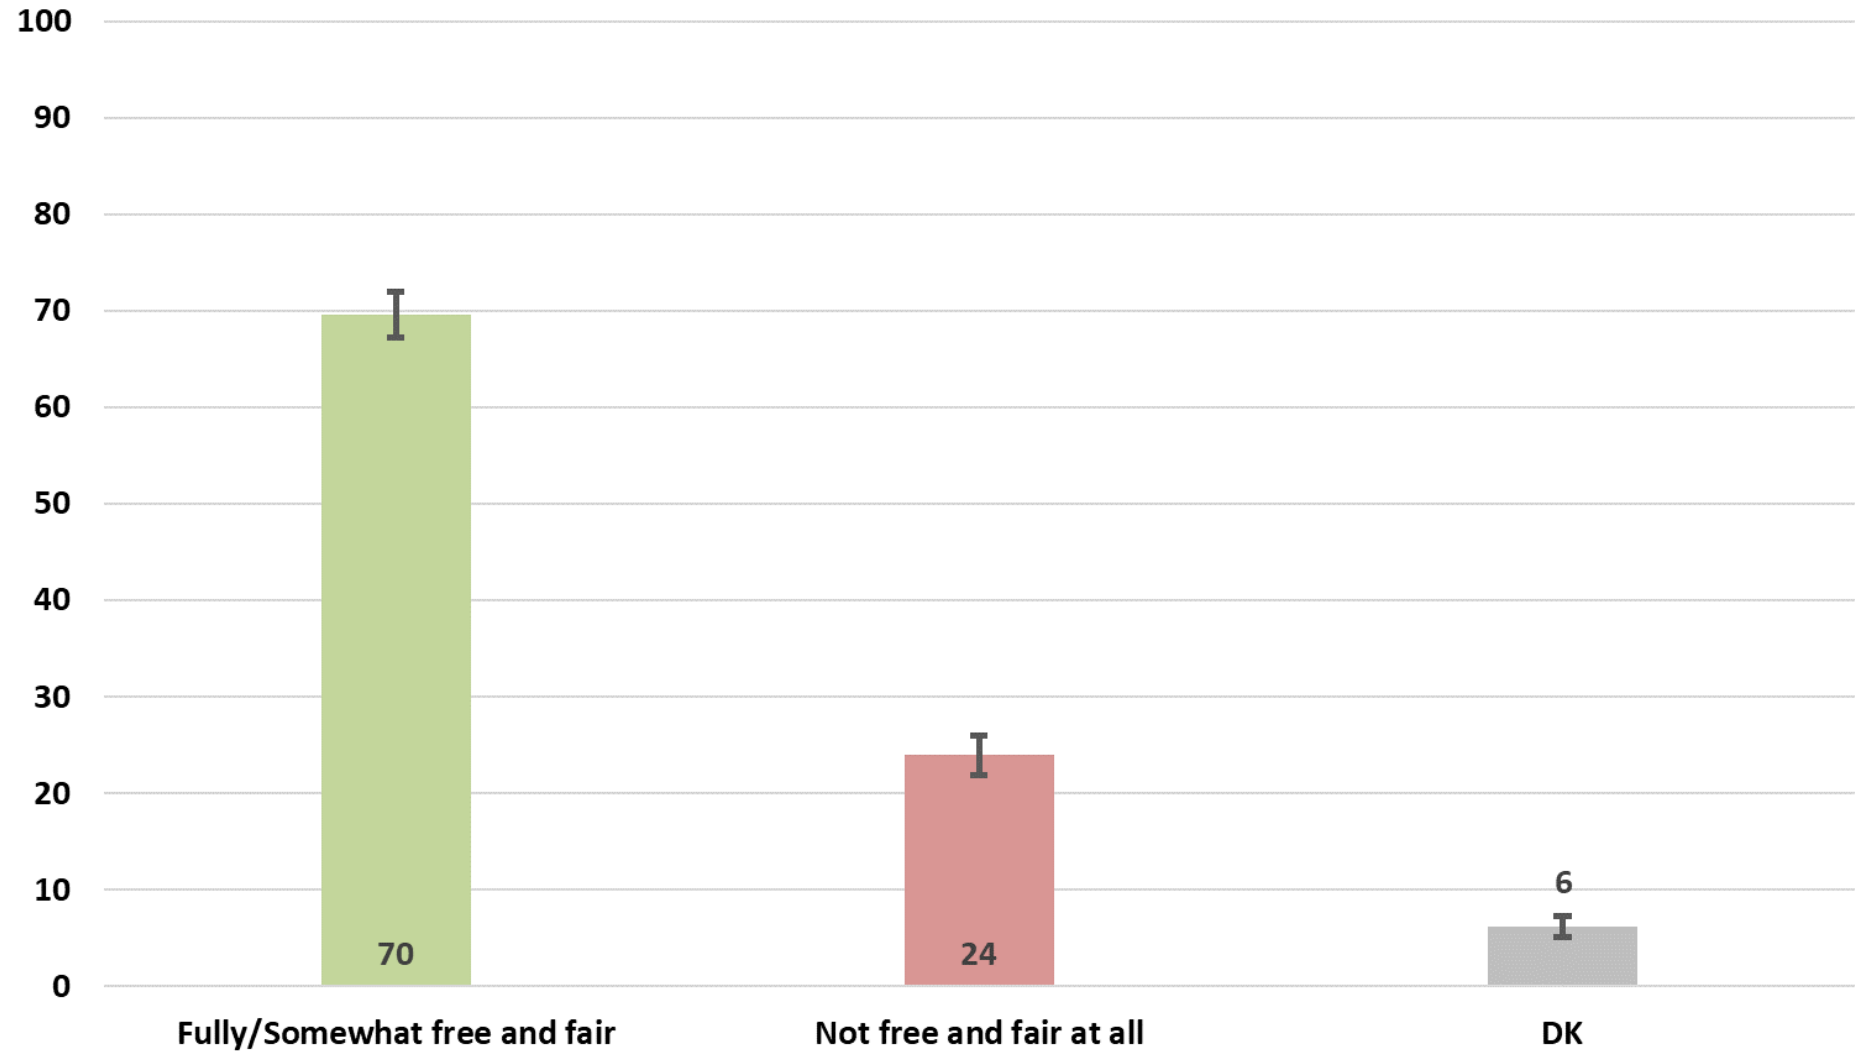

# ELECTIONS AND POST-ELECTION UKRAINE

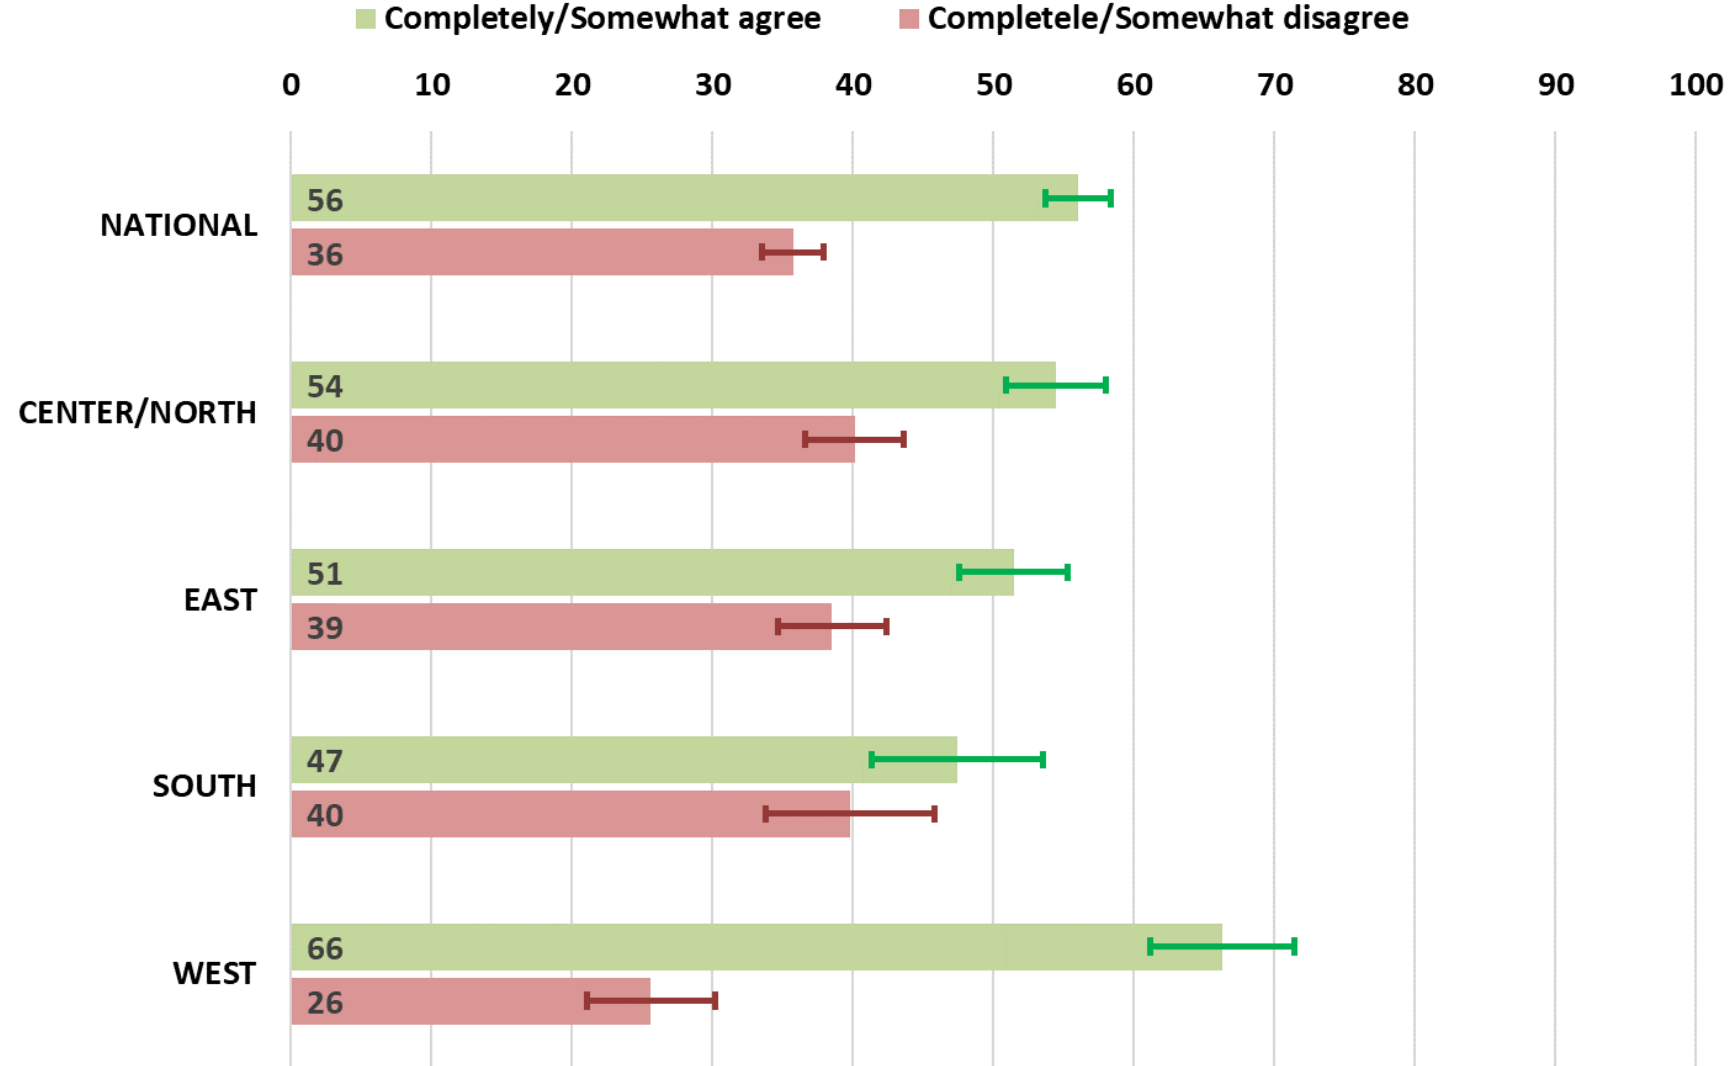

# What is your attitude toward the following parties today? (q19)

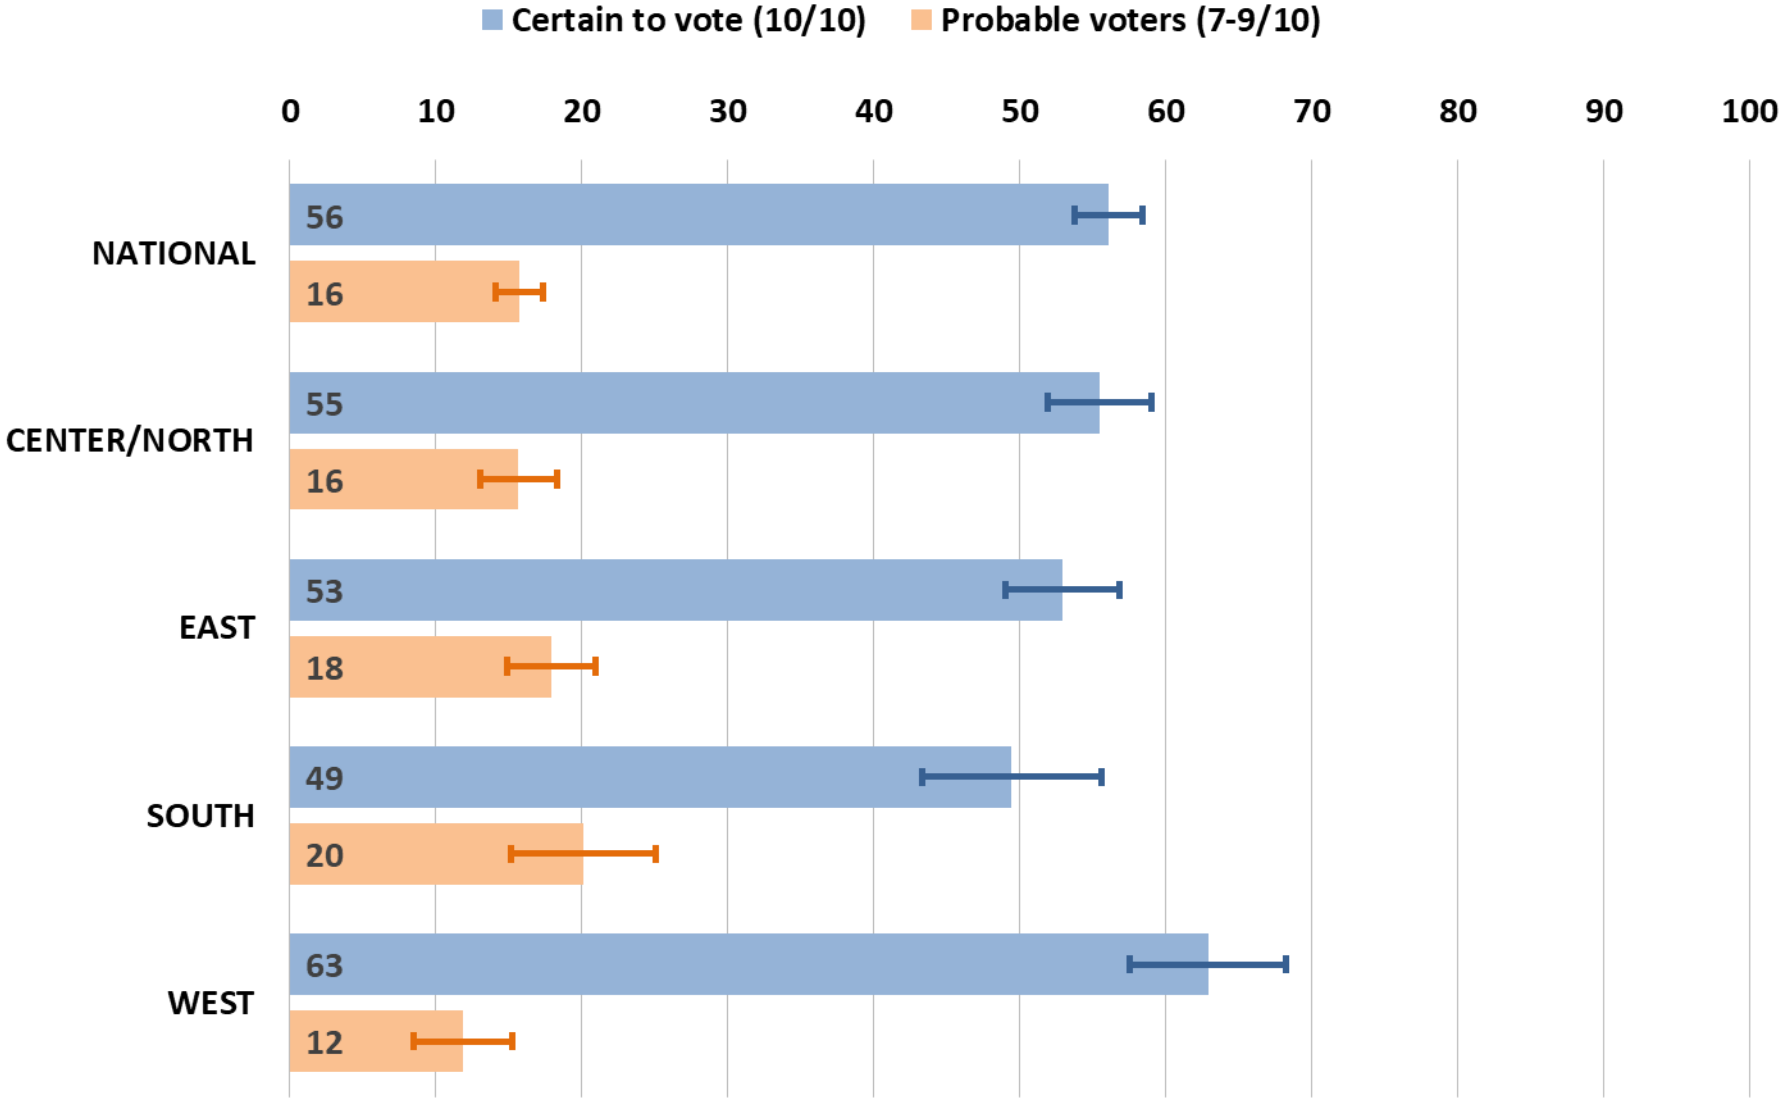

**Do you think the 2020 local elections were fully free and fair, somewhat free and fair, not free and fair at all?  
(q24)**

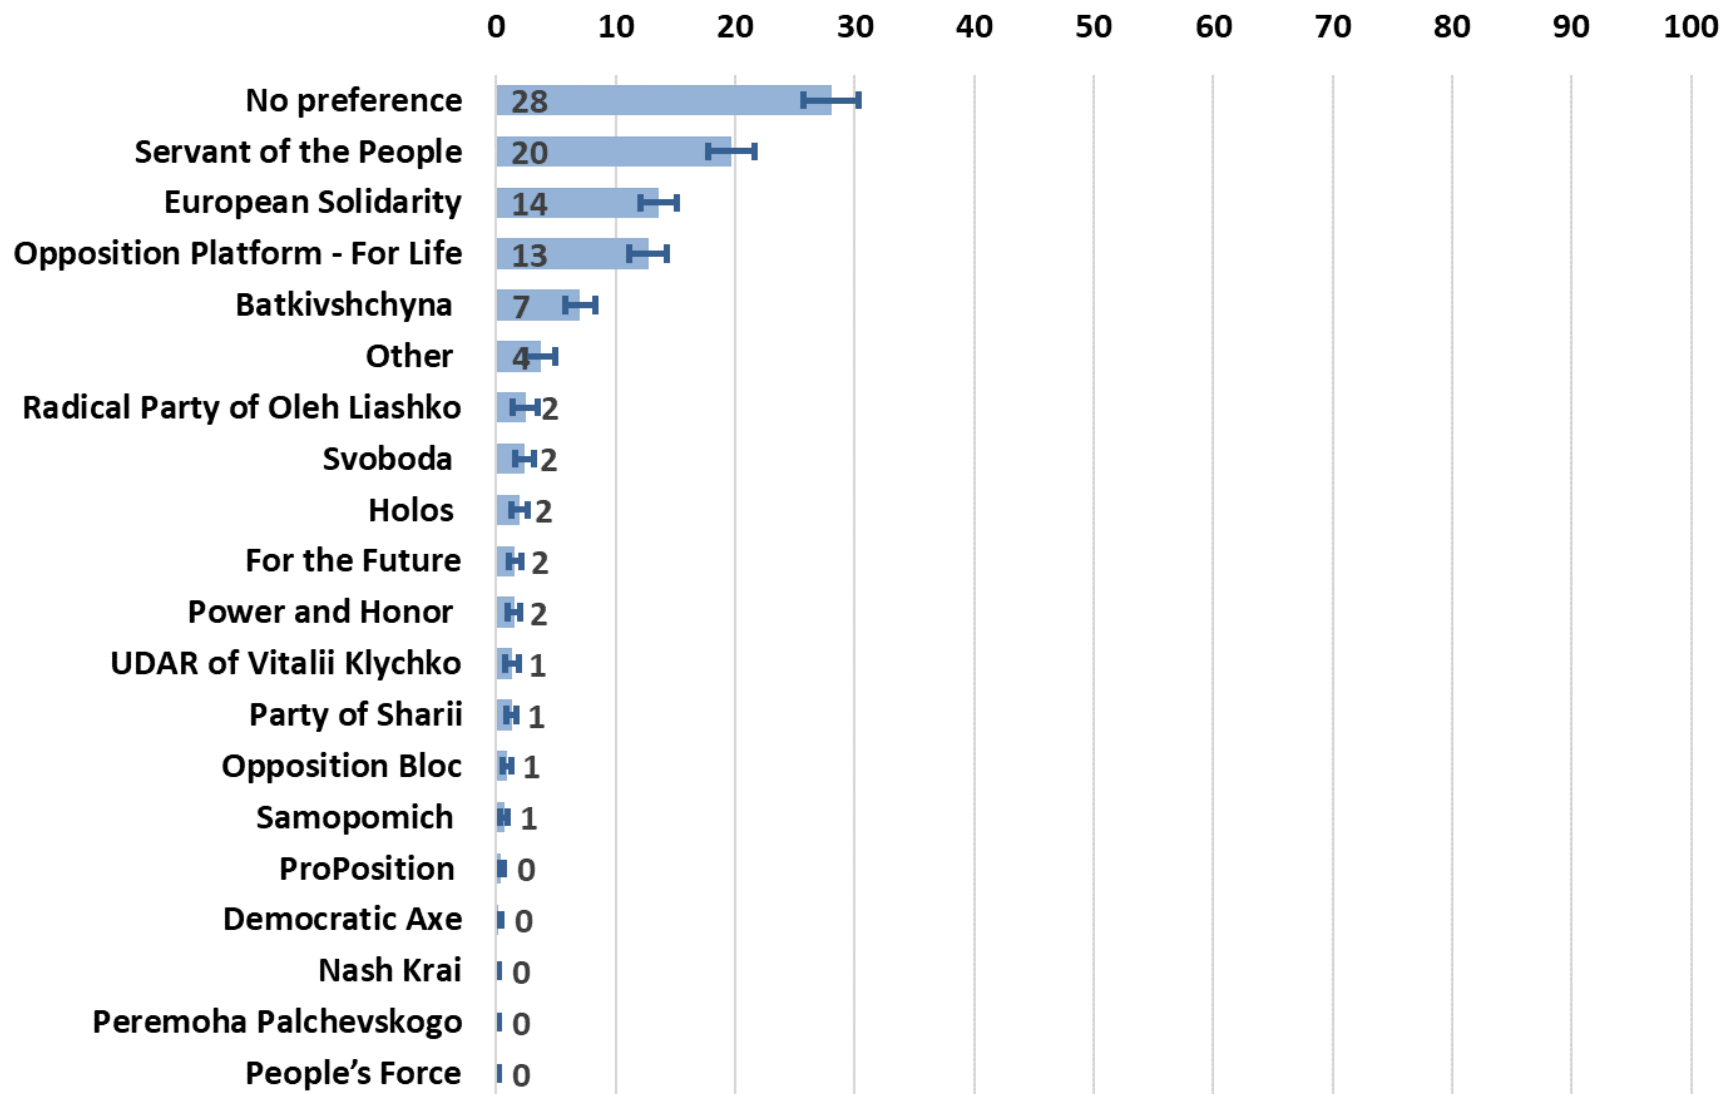

# To what extent do you agree or disagree that your newly elected local government will make changes that matter to you? (q27 X Settlement)

# If parliamentary elections were held tomorrow, would you vote? (q30 X Settlement)

# Which party would you vote for if parliamentary elections were held tomorrow? (q31)

# METHODOLOGY

# Bi-annual Survey Methodology

## Fieldwork dates: December 16 – 24, 2020

2,533 completed interviews

The nationally representative sample was random:

- One-staged sample based on random generation of mobile phone numbers
- No additional quota or strata was used

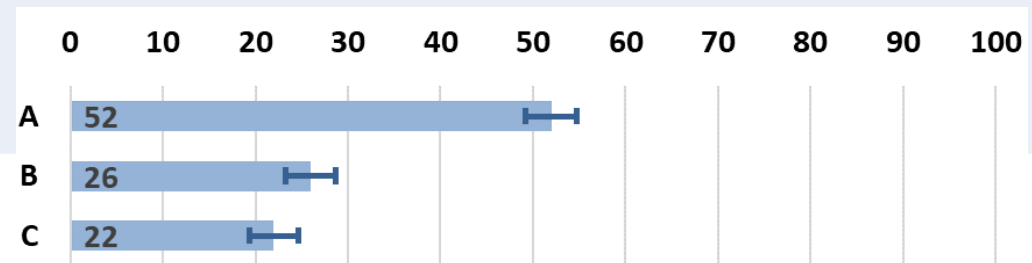

Areas outside the control of the Ukrainian government were excluded

## Quality control

- All interviewers received a two-level training system
- An independent controllers conducted quality control interviews
- 26% of all interviews were checked by controllers
- All 2,533 interviews were conducted via telephone using CATI (Computer-Assisted Telephone Interview) software

The margin of error for national sample is 2.2%

- The margin of error is different for every response to every question in all surveys. In this presentation, the margin of error is shown for each question/option
- This is shown in the example below:
  - A is statistically greater than B and C
  - There is no statistical difference between B and C

# Citizen engagement Survey Methodology

**Fieldwork dates: October 28 – November 3, 2020**

2,005 completed interviews

The nationally representative sample was random:

- One-staged sample based on random generation of mobile phone numbers
- No additional quota or strata was used

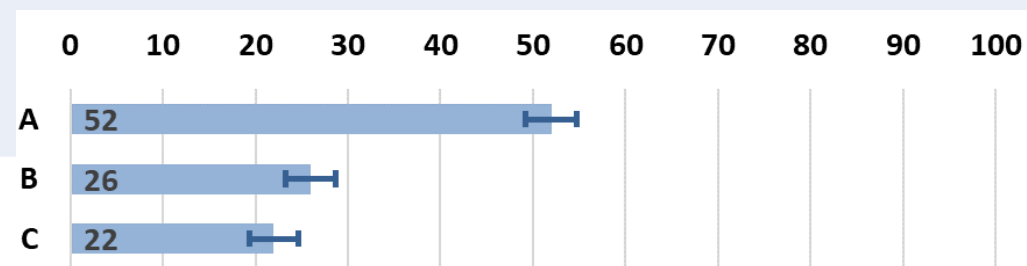

Areas outside the control of the Ukrainian government were excluded

## Quality control

- All interviewers received a two-level training system
- An independent controllers conducted quality control interviews
- 24% of all interviews were checked by controllers
- All 2,005 interviews were conducted via telephone using CATI (Computer-Assisted Telephone Interview) software

The margin of error for national sample is 2.4%

- The margin of error is different for every response to every question in all surveys. In this presentation, the margin of error is shown for each question/option
- This is shown in the example below:
  - A is statistically greater than B and C
  - There is no statistical difference between B and C

## Telephone survey on the vaccine methodology

<b>Method</b>	CATI (Computer-assisted telephone interview)
<b>Sampling frame</b>	The survey was conducted only with respondents aged 18 and older across Ukraine. Areas outside the control of the Ukrainian government were excluded
<b>Sampling</b>	The nationally representative sample was random: <ul style="list-style-type: none"><li>• One-staged sample based on random generation of mobile phone numbers</li><li>• No additional quota or strata was used</li></ul>
<b>Fieldwork</b>	Fieldwork conducted from <b>January 22, 2021</b> . A total of <b>1,005 respondents'</b> data was received.
<b>Margin of error</b>	The margin of error does not exceed 3.4%
