PUBLIC ATTITUDES IN GEORGIA
RESULTS OF JULY 2021 TELEPHONE SURVEY
CARRIED OUT FOR NDI BY CRRC GEORGIA

Research is funded by the United Kingdom of Great Britain and Northern Ireland through the Foreign, Commonwealth and Development Office’s Good Governance Fund.
To foster the development of more responsive policies and governance;

To help stakeholders diagnose and address issues of public concern.

- Leaders from across the political spectrum have reported that polls are important to their work and encourage continued polling;

- Inclusive process: the polling instrument was developed in consultation with the stakeholders.
All interviews were conducted via mobile phone interview method.

Simple random sampling method was used. Respondents were selected using the random-digit-dial method.

Interviews were conducted in Georgian, Azerbaijani, Armenian and Russian languages.

The poll is representative of entire Georgian population (excluding the occupied territories).

In addition, the poll is representative of the capital, urban and rural settlements.

Quality control

All interviewers receive special training.
CRRC central office coordinators conduct quality control interviews.

Fieldwork dates: July 13-25, 2021
2,016 completed interviews (23% response rate, according to AAPOR standards)
The average margin of error is +/- 1.3%

Note: the margin of error is different for every response

Shift from face-to-face to telephone method might affect a change on historical slides.
DIFFERENCES BETWEEN FACE TO FACE AND TELEPHONE SURVEYS

**Face to face survey**

- Ability to ask more questions (60-80);
- Interviews take longer (30-60 min);
- You can ask longer questions, provide definitions;
- You can show cards with answer options.

**Telephone survey**

- Number of questions limited (20-30);
- Shorter duration (10-20 min);
- Questions are shorter and simpler, than during face to face interviews;
- You can’t use show cards with answer options. This means that answer options should be shorter, or interviewer should correspond answers.
DIFFERENCES BETWEEN FACE TO FACE AND TELEPHONE SURVEYS

**Face to face survey**
- Interviewer sees respondent and can observe respondent’s non-verbal behavior, whether he/she understand the question or not;
- Interviewer is in the same space with respondent and can better manage the situation;
- Certain group of busy people are harder to reach this way;
- Due to the sampling method, margin of error is higher than during telephone surveys;
- More expensive;
- Longer fieldwork.

**Telephone survey**
- Chances are higher that respondent can’t understand the question and interviewer won’t notice it;
- Interviewer has no way of knowing in what kind of environment the respondent is;
- Easier to approach some respondents, e.g. men or people who are often out of home;
- Due to the sampling method, margin of error is lower than during face to face interviews;
- Cheaper;
- Shorter fieldwork.
RESEARCH GOALS

- To help stakeholders better understand public attitudes towards the top national issues: economy and healthcare;

- To help the newly elected Parliament diagnose and address expectations towards the new convocation;

- To help stakeholders understand attitudes and challenges around Covid-19 and upcoming vaccination, including reasons for vaccine support and hesitancy.

CHAPTER VI

PARTIES AND ELECTIONS
Intention to vote
If local government elections were held tomorrow, would you vote? (q28)

Percentage of people saying they would absolutely vote:
• 2017 June poll - 61%
• 2014 April poll - 60%

In August 2020 the question was about parliamentary elections.
Majority of Georgians do not know or do not say which party is closest to them. Only 30% of citizens named a political party closest to them.

Declared support for individual parties are so low that they cannot be taken as a guide to the outcome of future elections.

The numbers seen in the final election tallies will look considerably different than the numbers presented in this poll as the results will depend on how these undecided ultimately cast their ballots.

Which party is closest to you? (q8) **Open Question**

- Named a specific party: 30
- No party: 51
- Don't know + refuse to answer: 19
